

**Alta Quality Growth Fund
Institutional Shares – AQLGX**

A series of Capitol Series Trust

STATEMENT OF ADDITIONAL INFORMATION

December 19, 2018

This Statement of Additional Information (“SAI”) provides general information about the Alta Quality Growth Fund (the “Fund”), a series of the Capitol Series Trust (the “Trust”). This SAI is not a prospectus and should be read in conjunction with the Fund’s current prospectus dated December 19, 2018 (the “Prospectus”), as supplemented and amended from time to time, which is incorporated herein by reference. To obtain a copy of the Fund’s Prospectus, free of charge, please write the transfer agent at Ultimus Fund Solutions, LLC, 225 Pictoria Drive, Suite 450, P.O. Box 46707, Cincinnati, Ohio 45246-0707, call Shareholder Services at 1-800-957-0681, or visit the Fund’s website at www.altacapitalfunds.com.

DESCRIPTION OF THE TRUST AND FUND

A. General Information

The **Alta Quality Growth Fund** (the “Fund”) was organized as a diversified series of Capitol Series Trust (the “Trust”) on December 18, 2018. The Trust is an open-end investment company established under the laws of Ohio by an Agreement and Declaration of Trust dated September 18, 2013 (the “Trust Agreement”). The Fund currently offers one class of shares, Institutional Shares. Alta Capital Management, LLC (the “Adviser”), serves as investment adviser to the Fund.

Expenses attributable to any series or class are borne by that series or class. Any general expenses of the Trust not readily identifiable as belonging to a particular series or class are allocated by or under the direction of the Trustees in such manner as the Trustees determine to be fair and equitable. No shareholder is liable to further calls or to assessment by the Trust without his or her express consent.

The Fund does not issue share certificates. Rather, all shares are held in non-certificated form registered on the books of the Fund and Ultimus Fund Solutions, LLC, the Fund’s transfer agent (the “Transfer Agent”) for the account of the shareholder.

B. Shareholder Voting and Other Rights

The Trust Agreement permits the Trust’s Board of Trustees (the “Board”), without shareholder approval, to issue an unlimited number of shares of beneficial interest in separate series without par value and to divide series into classes of shares. The Board may from time to time, and without shareholder approval, divide or combine the shares of the Fund or class thereof into a greater or lesser number of shares of that Fund or class so long as the proportionate beneficial interest in the assets belonging to that Fund or class and the rights of shares of any other series or class are in no way affected.

Each share of the Fund represents an equal proportionate interest in the assets and liabilities belonging to that Fund and in such dividends and distributions out of income belonging to that Fund as declared by the Board.

Each Fund share has the same voting and other rights and preferences as any other shares of the Trust with respect to matters that affect the Trust as a whole. The Fund or class thereof votes separately with respect to the provisions of any Rule 12b-1 plan which pertains to that Fund or class and other matters for which separate series or class voting is appropriate under applicable law. Generally, shares will be voted separately by individual series except if: (1) the Investment Company Act of 1940, as amended (the “1940 Act”) requires shares to be voted in the aggregate and not by individual series; and (2) when the Trustees determine that the matter affects more than one series and all affected series must vote. The Trustees may also determine that a matter only affects certain series or classes of the Trust and thus only those series or classes are entitled to vote on the matter.

Ohio law does not require the Trust to hold annual meetings of shareholders, and it is anticipated that shareholder meetings will be held only when specifically required by Federal or state law. When matters are submitted to shareholders for a vote, each shareholder is entitled to one vote for each whole share owned and fractional votes for each fractional share owned.

The Fund shares do not have cumulative voting rights, any preemptive or conversion rights, or any sinking fund provisions. Any Trustee may be removed by vote of the shareholders holding not less than two-thirds of the outstanding shares of the Trust.

The Trust Agreement can be amended by the Trustees, except that certain amendments that could adversely affect the rights of shareholders must be approved by the shareholders affected.

C. Redemptions

Voluntary Redemptions. A shareholder may redeem shares of the Fund class at the net asset value per share of that Fund class next-calculated, minus any applicable redemption fee, after the Fund receives the shareholder’s redemption request in proper form.

Mandatory Redemption. Each share of each series and class thereof is subject to redemption by the Trust at the net asset value per share of that series or class next calculated, minus any applicable sales charge: (1) after the Trustees determine, in their sole discretion, that failure to redeem may have materially adverse consequences to any holders of Trust shares, or any series of class thereof or the applicable Fund or Fund class; (2) upon such other conditions as may from time to time be determined by the Trustees and set forth in the current Prospectus of the Trust with respect to maintenance of shareholder accounts of a minimum amount; or (3) upon the termination or liquidation of the Trust or the Fund, as determined by the Trustees consistent with the Trust Instrument and applicable law.

D. Termination or Reorganization

Termination. The Trust may be terminated at any time by an instrument executed by a majority of the Trustees then in office upon prior written notice to the Trust's shareholders. Any series or class may be terminated at any time by an instrument executed by a majority of the Trustees upon prior written notice to the shareholders of that series or class.

Reorganization. The Trustees may sell, convey and transfer the assets of the Trust, or the assets belonging to any one or more series, to another trust, partnership, association or corporation organized under the laws of any state of the United States, or to the Trust to be held as assets belonging to another series of the Trust, in exchange for cash, shares or other securities (including, in the case of a transfer to another series of the Trust, shares of such other series) with such transfer being made subject to, or with the assumption by the transferee of, the liabilities belonging to each series the assets of which are being transferred. If required by the 1940 Act, any such transfer shall be subject to approval of the shareholders of the affected series.

In case of any liquidation of a series or class, the holders of shares of the series or class being liquidated will be entitled to receive as a class a distribution out of the assets, net of the liabilities, belonging to that series or class.

ADDITIONAL INFORMATION ABOUT FUND INVESTMENTS AND RISK CONSIDERATIONS

Unless otherwise specified, percentage limitations on investments set forth in the Prospectus and this SAI will be applied at the time of investment. Therefore, these percentages could be exceeded due to a decline in each share class' net asset value ("NAV") due to fluctuations in the value of the Fund's portfolio securities and the liquidation of portfolio securities to fulfill repurchase requests (which the Fund's Board has, in its sole discretion, authorized) or to pay expenses.

Except for the Fund's fundamental policies listed below, no other policy of the Fund, including its investment objective, is a fundamental policy of the Fund and may be changed by the Board without the vote of the Fund's shareholders.

The principal investment strategies the Fund uses to pursue its investment objective and the risks of those strategies are discussed in the Fund's Prospectus and are incorporated herein by reference. Unless otherwise stated in the Prospectus, investment strategies and techniques are generally discretionary. This means that the Adviser may elect to engage or not engage in various strategies and techniques in its sole discretion. Investors should not assume that any particular discretionary investment technique or strategy will always or ever be employed by the Fund.

In addition to the principal investment strategies and the principal risks of the Fund as described in the Prospectus, the Fund may employ secondary investment practices and may be subject to additional secondary risks, which are described below. The following is a description of secondary investment strategies and secondary risks for how the Fund might evolve, not necessarily how it currently operates. Unless a strategy or policy described below is specifically prohibited by the investment restrictions, under "Investment Restrictions" in this SAI, or by applicable law, the Fund may engage in each of the practices described below. However, the Fund is not required to engage in any particular transaction or purchase any particular type of securities or investment even if to do so might benefit the Fund.

A. Corporate Equity Securities

Generally. The Fund seeks to achieve its objective by investing at least 80% of its net assets (plus borrowings for investment purposes) in equity securities of companies of large-capitalization companies. The Fund may invest in equity securities including common stocks, preferred stocks and convertible securities of U.S. and foreign corporate issuers including equity securities of smaller companies. The value of equity securities depends on business, economic and other factors affecting those issuers. Equity securities fluctuate in value, often based on factors unrelated to the value of the issuer of the securities, and such fluctuations may be pronounced.

Risks of Foreign Markets. Securities that trade in foreign markets may be subject to greater fluctuations in price than securities of U.S. companies because foreign markets may be smaller and less liquid than U.S. markets. Changes in foreign tax laws, investment regulations and policies on nationalization and expropriation as well as political instability may affect the operations of foreign companies and the value of their securities. Fluctuations in currency exchange rates and changes in regulations governing currency exchange may adversely affect the value of the Fund's investments in foreign securities denominated or quoted in currencies other than the U.S. dollar. Foreign securities and their issuers may not be subject to the same degree of regulation as U.S. issuers regarding information disclosure, insider trading and market manipulation. There may be less publicly available information on foreign companies and foreign companies may not be subject to uniform accounting, auditing, and financial standards as are U.S. companies. Foreign securities registration, custody and settlements may be subject to delays or other operational and administrative problems. Certain foreign brokerage commissions and custody fees may be higher than those in the U.S. Dividends payable on the foreign securities contained in the Fund's portfolio may be subject to foreign withholding taxes, thus reducing the income available for distribution to the Fund's shareholders.

Risks of Emerging Markets. Securities that trade in emerging markets may be less liquid and the prices of these securities may be more volatile than the prices of those securities that trade in more developed foreign markets. Information regarding securities that trade in emerging markets is not always readily available. Greater political and economic uncertainties exist in emerging markets than in developed foreign markets and the securities markets and legal systems in emerging markets may not be well developed and may not provide the protections and advantages of the markets and systems available in more developed countries. Moreover, very high inflation rates may exist in emerging markets and could negatively impact a country's economy and securities markets. Emerging markets may impose restrictions on the Fund's ability to repatriate investment income or capital and thus, may adversely affect the operations of the Fund. Certain emerging markets may impose constraints on currency exchange and some currencies in emerging markets may have been devalued significantly against the U.S. dollar. Governments of some emerging markets exercise substantial influence over the private sector and may own or control many companies and government actions could have a significant effect on economic conditions in emerging markets, which, in turn, could affect the value of the Fund's investments. Emerging markets may also be subject to less government supervision and regulation of business and industry practices, stock exchanges, brokers and listed companies.

For these and other reasons, the prices of securities in emerging markets can fluctuate more significantly than the prices of securities of companies in developed countries. The less developed the country, the greater affect these risks may have on your investment in a Fund, and as a result, an investment in that Fund may exhibit a higher degree of volatility than either the general the U.S. securities market or the securities markets of developed foreign countries.

Common Stock. Common stock represents an equity (ownership) interest in a company, and usually possesses voting rights and earns dividends. Common stockholders are not creditors of the company, but rather, upon liquidation of the company are entitled to their pro rata share of the company's assets after creditors and, if applicable, preferred stockholders are paid. Dividends on common stock are not fixed but are declared at the discretion of the issuer. Common stock generally represents the riskiest investment in a company. In addition, common stock generally has the greatest appreciation and depreciation potential because increases and decreases in earnings are usually reflected in a company's stock price.

Preferred Stock. The Fund may invest in convertible and non-convertible preferred stock. Preferred stock has a preference in liquidation (and, generally dividends) over common stock but is subordinated in liquidation to debt. As a general rule the market value of preferred stocks with fixed dividend rates and no conversion rights varies inversely with interest rates and perceived credit risk, with the price determined by the dividend rate. Some preferred stocks are convertible into other securities, (for example, common stock) at a fixed price and ratio or upon the occurrence of certain events. The market price of convertible preferred stocks generally reflects an element of conversion value.

Risks of Preferred Stock. The fundamental risk of investing in preferred stock is the risk that the value of the stock might decrease. Stock values fluctuate in response to the activities of an individual company or in response to general market and/or economic conditions. The market value of all securities, including preferred stocks, is based upon the market's perception of value and not necessarily the book value of an issuer or other objective measures of a company's worth.

Because many preferred stocks lack a fixed maturity date, these securities generally fluctuate substantially in value when interest rates change; such fluctuations often exceed those of long-term bonds of the same issuer. Some preferred stocks pay an adjustable dividend that may be based on an index, formula, auction procedure or other dividend rate reset mechanism. In the absence of credit deterioration, adjustable rate preferred stocks tend to have more stable market values than fixed rate preferred stocks. All preferred stocks are also subject to the same types of credit risks of the issuer as corporate bonds. In addition, because preferred stock is junior to debt securities and other obligations of an issuer, deterioration in the credit rating of the issuer will cause greater changes in the value of a preferred stock than in a more senior fixed income security with similar yield characteristics.

Convertible Securities. Convertible securities are fixed income securities, preferred stock or other securities that may be converted into or exchanged for a given amount of common stock of the same or a different issuer during a specified period of time at a specified price or formula. A convertible security entitles the holder to receive interest on debt or the dividend on preferred stock until the convertible security matures or is redeemed, converted or exchanged. Before conversion, convertible securities ordinarily provide a stream of income with generally higher yields than those of common stock of the same or similar issuers, but lower than the yield of non-convertible debt. Convertible securities rank senior to common stock in a company's capital structure but are usually subordinated to comparable non-convertible securities. By investing in convertible securities, the investor obtains the right to benefit from the capital appreciation potential in the underlying common stock upon the exercise of the conversion right, while earning higher current income than could be available if the stock was purchased directly. In general, the value of a convertible security is the higher of its investment value (its value as a fixed income security) and its conversion value (the value of the underlying shares of common stock if the security is converted).

Risks of Convertible Securities. The value of a convertible security generally increases when interest rates decline and generally decreases when interest rates rise. The credit standing of the issuer and other factors also may have an effect on the convertible security's investment value. The conversion value of a convertible security is determined by the market price of the underlying common stock. If the conversion value is low relative to the investment value, the price of the convertible security is governed principally by its investment value. Generally, a convertible security's conversion value decreases as the convertible security approaches maturity. To the extent the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible security will be increasingly influenced by its conversion value. In addition, a convertible security generally will sell at a premium over its conversion value determined by the extent to which investors place value on the right to acquire the underlying common stock.

Because convertible securities are typically issued by smaller capitalized companies whose stock price may be volatile, the price of a convertible security may reflect variations in the price of the underlying common stock in a way that nonconvertible debt does not. Also, while convertible securities generally have higher yields than common stock, they have lower yields than comparable non-convertible securities and are subject to less fluctuation in value than the underlying stock since they have fixed income characteristics. A convertible security may be subject to redemption at the option of the issuer at a price established in the convertible security's governing instrument. If a convertible security is called for redemption, the Fund will be required to permit the issuer to redeem the security, convert it into the underlying common stock or sell it to a third party.

The Fund is permitted to invest in securities with innovative structures, which have become more common in the convertible securities market. These include "mandatory-conversion" securities, which consist of debt securities or preferred stocks that convert automatically into equity securities of the same or a different issuer at a specified date and conversion ratio. Mandatory-conversion securities may limit the potential for capital appreciation and, in some instances, are subject to complete loss of invested capital. Another example of innovative convertible securities is "equity-linked" securities, which are securities or derivatives that may have fixed, variable, or no interest payments prior to maturity; may convert (at the option of the holder or on a mandatory basis) into cash or a combination of cash and equity securities; and may be structured to limit the potential for capital appreciation. Equity-linked securities may be illiquid and difficult to value and may be subject to greater credit risk than that of other convertible securities.

B. Depositary Receipts

American Depositary Receipts (“ADRs”) are securities, typically issued by a U.S. financial institution (a “depository”), that evidence ownership interests in a security or a pool of securities issued by a foreign issuer and deposited with the depository. ADRs include American Depositary Shares and New York Shares. European Depositary Receipts (“EDRs”), which are sometimes referred to as Continental Depositary Receipts (“CDRs”), are securities, typically issued by a non-U.S. financial institution, that evidence ownership interests in a security or a pool of securities issued by either a U.S. or foreign issuer. Global Depositary Receipts (“GDRs”) are issued globally and evidence a similar ownership arrangement. Generally, ADRs are designed for trading in the U.S. securities markets, EDRs are designed for trading in European securities markets and GDRs are designed for trading in non-U.S. securities markets.

Depositary receipt facilities may be established as either “unsponsored” or “sponsored.” While depository receipts issued under these two types of facilities are in some respects similar, there are distinctions between them relating to the rights and obligations of depository receipt holders and the practices of market participants. A depository may establish an unsponsored facility without participation by (or even necessarily the permission of) the issuer of the deposited securities, although typically the depository requests a letter of non-objection from such issuer prior to the establishment of the facility. Holders of unsponsored depository receipts generally bear all the costs of such facility. The depository usually charges fees upon the deposit and withdrawal of the deposited securities, the conversion of dividends into U.S. dollars, the disposition of non-cash distributions, and the performance of other services. The depository of an unsponsored facility frequently is under no obligation to pass through voting rights to depository receipt holders in respect of the deposited securities. In addition, an unsponsored facility is generally not obligated to distribute communications received from the issuer of the deposited securities or to disclose material information about such issuer in the U.S. and there may not be a correlation between such information and the market value of the depository receipts.

Sponsored depository receipt facilities are created in generally the same manner as unsponsored facilities, except that the issuer of the deposited securities enters into a deposit agreement with the depository. The deposit agreement sets out the rights and responsibilities of the issuer, the depository, and the depository receipt holders. With sponsored facilities, the issuer of the deposited securities generally will bear some of the costs relating to the facility (such as dividend payment fees of the depository) although depository receipt holders continue to bear certain other costs (such as deposit and withdrawal fees). Under the terms of most sponsored arrangements, depositories agree to distribute notices of shareholder meetings and voting instructions, and to provide shareholder communications and other information to the depository receipt holders at the request of the issuer of the deposited securities.

Risks of Depositary Receipts. The depository bank may not have physical custody of the underlying securities at all times and may charge fees for various services, including forwarding dividends and interest and corporate actions. ADRs are alternatives to directly purchasing the underlying foreign securities in their national markets and currencies. However, ADRs continue to be subject to many of the risks associated with investing directly in foreign securities. These risks include foreign exchange risk as well as the political and economic risks of the underlying issuer’s country. See “Equity Securities – Generally – Risks of Foreign Markets” and “Equity Securities – Generally – Risks of Emerging Markets” for the risks of investing in foreign securities, generally.

C. Other Investment Companies

Generally. The Fund may invest in other investment companies to the extent permitted by the 1940 Act. The Fund may invest in closed-end and open-end investment companies registered under the 1940 Act. Closed-end funds include business development companies (each a “BDC”) and open-end funds include mutual funds and exchange traded funds (each an “ETF”). The Fund may hold interests in investment companies that are not registered under the 1940 Act (each a “Private Fund”). Private Funds are typically organized as limited partnerships or limited liability companies. See “Status and Taxation of the Fund” for information regarding tax-related limitations on the Fund’s investments in Private Funds.

The Fund generally may purchase or redeem, without limitation, shares of any affiliated or unaffiliated money market mutual funds, including unregistered money market funds, so long as the Fund does not pay a sales load or service fee in connection with the purchase, sale or redemption or if such fees are paid, the Adviser waives its management fee in an amount necessary to offset the amounts paid.

With respect to other investments in investment companies, the 1940 Act generally limits the Fund from acquiring (i) more than 3% of the total outstanding shares of another investment company; (ii) shares of another investment company having an aggregate value in excess of 5% of the value of the total assets of the Fund; or (iii) shares of another registered investment company and all other investment companies having an aggregate value in excess of 10% of the value of the total assets of the Fund. While the Fund's investments in Private Funds are not subject to these limitations, the Fund will limit its investment in any one Private Fund to less than 5% of that Private Fund's outstanding voting securities.

Risks of Investment Companies. The 1940 Act and the Internal Revenue Code ("IRC") impose numerous constraints on the operations of registered investment companies. These restrictions may prohibit the Fund from making certain investment thus potentially limiting its profitability. Moreover, in order to qualify for registered investment company tax treatment under subchapter M of the registered investment company ("RIC") (e.g. to be treated as a corporation for tax purposes and to pass through income and capital gains to investors), a registered investment company must satisfy source-of-income, asset diversification and other requirements. The failure to comply with these provisions in a timely manner may prevent qualification as a registered investment company thus requiring the investment company to pay unexpected taxes and penalties, which could be material.

When the Fund invests in another investment company, the Fund indirectly will bear its proportionate share of any fees and expenses payable directly by the underlying fund. Therefore, the Fund will incur higher expenses, many of which may be duplicative to those paid the Fund. In addition, the Fund may be affected by losses of the underlying funds and the level of risk arising from the investment practices of the underlying funds (such as the use of leverage by the funds). The Fund has no control over the investments and related risks taken by the underlying funds in which it invests. Other investment companies may charge fees if interests are redeemed within a certain period of time.

Risks of Private Funds. An investor in Private Funds will not have the benefit of protections afforded by the 1940 Act to investors in registered investment companies. The Adviser will not have control of, or have the ability to exercise influence over, the trading policies or strategies of a Private Fund. A Private Fund's investment strategies may evolve over time in response to fluctuating market conditions without notice to investors. In addition to its own expenses, the Fund will also bear its allocable share of the costs and expenses of each Private Fund, including its allocable share of the management and incentive compensation paid to a Private Fund's investment manager. As a result, the Fund's investments in Private Funds may result in the Fund paying higher expenses than other funds with similar investment objectives and strategies or if it invested directly in the securities held by the Private Funds. The Fund's interests in Private Funds are illiquid and subject to substantial restrictions on transferability. The Fund may not be able to acquire initial interests (or additional interests) in a Private Fund or withdraw all or a portion of its investment from a Private Fund promptly after it has made a decision to do so because of limitations set forth in that fund's governing documents (or in such negotiated "side letter" or similar arrangement as the Adviser or Sub-Adviser may be able to negotiate on behalf of the Fund). Private Funds typically provide limited portfolio information. This may result in a Private Fund using investment strategies that are not fully disclosed to the Adviser. Absent the availability of strategy and investment details, the Fund may not be in a position to timely liquidate interests in a Private Fund as changes to the Private Fund strategies and investments evolve over time. Market quotations for Private Funds are not readily available and, therefore, the value of the Fund's investment in a Private Fund will be valued at fair value pursuant to procedures approved by the Board. Given the subjectivity inherent in fair valuation and the limited portfolio information typically available from a Private Fund, the price at which the Fund values its interest in the Fund may differ from any periodic valuation of the Fund's interest provided by the Private Fund and the price at which the Fund ultimately sells its interest in the Private Fund.

Closed-End Funds. Closed-end funds are investment companies that typically issue a fixed number of shares that trade on a securities exchange or over-the-counter. BDCs are publicly-traded closed-end funds that seek capital appreciation and income by investing in smaller companies during their initial or growth stages of development. The net asset value per share of a closed-end fund will fluctuate depending upon the performance of the securities held by the fund. A closed-end fund is not required to buy its shares back from investors upon request.

Mutual Funds. Mutual funds are open-end investment companies and issue new shares continuously and redeem shares daily at their net asset value. The net asset value per share of an open-end fund will fluctuate daily depending upon the performance of the securities held by the fund.

Exchange-Traded Funds. ETFs are open-end investment companies that continuously issue shares that are bought and sold on a national securities exchange. Many ETFs seek to replicate a specific benchmark index. However, an ETF may not fully replicate the performance of its benchmark index for many reasons, including because of the temporary unavailability of certain index securities in the secondary market or discrepancies between the ETF and the index with respect to the weighting of securities or the number of stocks held. The net asset value of an ETF can fluctuate up or down due to changes in the market value of the securities owned by the fund. ETF shares are only redeemable from the fund in large blocks.

Risks of Closed-end Funds and ETFs. In addition to risks generally associated with investments in investment company securities, ETFs and closed-end funds are subject to the following risks that do not apply to traditional mutual funds: (1) shares may trade at a market price that is above or below its net asset value; (2) an active trading market for shares may not develop or be maintained; (3) the ETF or closed-end fund may employ an investment strategy that utilizes high leverage ratios; or (4) trading of shares may be halted if the listing exchange's officials deem such action appropriate, the shares are de-listed from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally.

D. Real Estate and Real Estate Investment Trusts ("REITs")

A REIT is a corporation or business trust that invests substantially all of its assets in income producing real estate or real estate related loans or interests. Equity REITs are those which purchase or lease land and buildings and generate income primarily from rental income. Equity REITs may also realize capital gains (or losses) when selling property that has appreciated (or depreciated) in value. Mortgage REITs invest in real estate mortgage securities and derive income primarily from interest payments. Hybrid REITs have characteristics of both Equity REITs and Mortgage REITs.

Risks of REITs. Equity REITs may be affected by changes in the value of the underlying property owned by the REITs, while mortgage REITs may be affected by the quality and maturity of any credit extended. REITs are dependent upon management skills, are not diversified, are subject to heavy cash flow dependency, default by borrowers and self-liquidation. REITs are also subject to the possibilities of failing to qualify for tax-free pass-through of income under the U.S. Internal Revenue Code and failing to maintain their exemptions from registration under the 1940 Act. REITs (especially mortgage REITs) are also subject to interest rate risks. When interest rates decline, the value of a REIT's investment in fixed rate obligations can be expected to rise. Conversely, when interest rates rise, the value of a REIT's investment in fixed rate obligations can be expected to decline. In contrast, as interest rates on adjustable rate mortgage loans are reset periodically, yields on a REIT's investment in such loans will gradually align to reflect changes in market interest rates, causing the value of such investments to fluctuate less dramatically in response to interest rate fluctuations than would investments in fixed rate obligations.

Mortgage REITs are subject to certain additional risks. Rising interest rates tend to extend the duration of the mortgage securities in which they invest, making them more sensitive to changes in interest rates. As a result, in a period of rising interest rates, these securities may exhibit additional volatility. In addition, mortgage securities are subject to prepayment risk, which is the risk that when interest rates decline or are low but are expected to rise, borrowers may pay off their debts sooner than expected. This can reduce the returns of Mortgage REITs because the Fund will have to reinvest such prepaid funds at the lower prevailing interest rates. Mortgage securities are also subject to risk of default on the underlying mortgage or assets, particularly during periods of economic downturn.

Investing in REITs involves risks similar to those associated with investing in small capitalization companies. REITs may have limited financial resources, may trade less frequently and in a limited volume and may be subject to more abrupt or erratic price movements than larger company securities.

E. MLPs

MLPs are publicly traded partnerships that predominately operate, or directly or indirectly own, energy-related assets. The Fund's investment in equity interests of MLPs may include both general partnership interests and limited partnership interests of MLPs. Not all publicly traded partnerships are considered MLPs. Limited Partnerships that are not MLPs are publicly traded partnerships that do not meet the qualifications contained in Section 7704 of the Internal Revenue Code of 1986, as amended

MLP Risk. MLPs are subject to many risks, including those that differ from the risks involved in an investment in the common stock of a corporation. Holders of MLP units have limited control and voting rights on matters affecting the partnership and are exposed to a possibility of liability for all of the obligations of that MLP. Holders of MLP units are also exposed to the risk that they will be required to repay amounts to the MLP that are wrongfully distributed to them. In addition, the value of the Fund's investment in an MLP will depend largely on the MLP's treatment as a partnership for U.S. federal income tax purposes. Furthermore, MLP interests may not be as liquid as other more commonly traded equity securities. In addition, MLPs have relatively high distribution rates compared to corporate securities. The characterization of these distributions as either long-term capital gains or as some other type of return may not be ascertainable until the end of a taxable year and may complicate the calculation of the Funds' and shareholders' taxes. Due to the Fund's investment in MLPs and other securities of companies principally engaged in activities in the energy industry, the Fund's performance could be affected by the overall condition of the energy industry. Companies in the energy industry are subject to many risks that can negatively impact the revenues and viability of companies in this industry. These risks include, but are not limited to, commodity price volatility risk, supply and demand risk, reserve and depletion risk, operations risk, political risk, regulatory risk, environmental risk, terrorism risk and the risk of natural disasters.

F. Fixed Income Securities

Generally. The Fund may invest in mortgage-backed securities (including collateralized mortgage obligations of U.S. issuers), asset-back securities, municipal securities and corporate debt securities of U.S. and foreign issuers; commercial paper, zero coupon securities, loan participations and inflation-index securities of U.S. issuers, U.S. Government Securities, foreign government securities, U.S. short-term money market instruments, foreign government securities.

Yields on fixed income securities, including municipal securities, are dependent on a variety of factors, including the general conditions of the fixed income securities markets, the size of a particular offering, the maturity of the obligation and the rating of the issue. Fixed income securities with longer maturities tend to produce higher yields and are generally subject to greater price movements than obligations with shorter maturities. A portion of the municipal securities held by the Fund may be supported by credit and liquidity enhancements such as letters of credit (which are not covered by federal deposit insurance) or puts or demand features of third party financial institutions, general domestic and foreign banks.

Risks of Fixed Income Securities. Investments in fixed income securities are subject to the following risks:

Credit Risk. Changes in the ability of an issuer to make payments of interest and principal and in the markets' perception of an issuer's creditworthiness will also affect the market value of that issuer's debt securities. The financial condition of an issuer of a fixed income security held by the Fund may cause it to default on interest or principal payments due on a security. This risk generally increases as security credit ratings fall.

Interest Rate Risk. The market value of the interest-bearing debt securities held by the Fund will be affected by changes in interest rates. There is normally an inverse relationship between the market value of securities sensitive to prevailing interest rates and actual changes in interest rates. The longer the remaining maturity (and duration) of a security, the more sensitive the security is to changes in interest rates. All fixed income securities, including U.S. Government Securities, can change in value when there is a change in interest rates. As a result, an investment in the Fund is subject to risk even if all fixed income securities in the Fund's investment portfolio are paid in full at maturity.

Pre-Payment and Extension Risk. Certain fixed income securities may be subject to extension risk, which refers to the change in total return on a security resulting from an extension or abbreviation of the security's maturity. Issuers may prepay fixed rate securities when interest rates fall, forcing the Fund to invest in securities with lower interest rates. Issuers' fixed income securities are also subject to the provisions of bankruptcy, insolvency and other laws affecting the rights and remedies of creditors that may restrict the ability of the issuer to pay, when due, the principal of and interest on its debt securities. The possibility exists therefore, that, as a result of bankruptcy, litigation or other conditions, the ability of an issuer to pay, when due, the principal of and interest on its debt securities may become impaired.

See “Equity Securities – Generally – Risks of Foreign Markets” and “Equity Securities – Generally – Risks of Emerging Markets” for the risks of investing in foreign securities, generally.

Credit Quality. The Fund may invest in investment grade fixed income securities. Fixed income securities are considered to be of investment grade quality if they are rated “Baa” or higher by Moody’s Investor Service, Inc. (“Moody’s”) or “BBB” or higher by Standard & Poors Corporation (“S&P”), or are unrated and are deemed to be of comparable quality by the Adviser or a Sub-Adviser (“Investment Grade Securities”), at the time of purchase. The Fund may also purchase fixed income securities that are not Investment Grade Securities otherwise known as “Junk Bonds”.

The Fund may retain securities whose rating has been lowered below investment grade (or that are unrated and determined by the Adviser or a Sub-Adviser to be of comparable quality to securities whose rating has been lowered below investment grade) if the Adviser or a Sub-Adviser determines that retaining such security is in the best interests of the Fund. Because a downgrade often results in a reduction in the market price of the security, the sale of a downgraded security may result in a loss.

Moody’s, S&P and other nationally recognized statistical rating organizations (“NRSROs”) are private services that provide ratings of the credit quality of debt obligations, including convertible securities, and preferred stock. A description of the range of ratings assigned to various types of bonds and other securities by several NRSROs is included in Appendix A to this SAI. The Fund may use these ratings to determine whether to purchase, sell or hold a security. Ratings are general and are not absolute standards of quality. Securities with the same maturity, interest rate and rating may have different market prices. To the extent that the ratings given by an NRSRO may change as a result of changes in such organizations or their rating systems, the Adviser or a Sub-Adviser will attempt to substitute comparable ratings. Credit ratings attempt to evaluate the safety of principal and interest payments and do not evaluate the risks of fluctuations in market value. Also, rating agencies may fail to make timely changes in credit ratings. An issuer’s current financial condition may be better or worse than a rating indicates.

Junk bonds generally offer a higher current yield than that available for investment grade issues. However, below investment grade debt securities involve higher risks, in that they are especially subject to adverse changes in general economic conditions and in the industries in which the issuers are engaged, to changes in the financial condition of the issuers, and to price fluctuations in response to changes in interest rates. During periods of economic downturn or rising interest rates, highly leveraged issuers may experience financial stress that could adversely affect their ability to make payments of interest and principal and increase the possibility of default. At times in recent years, the prices of many below investment grade debt securities declined substantially, reflecting an expectation that many issuers of such securities might experience financial difficulties. As a result, the yields on below investment grade debt securities rose dramatically, reflecting the risk that holders of such securities could lose a substantial portion of their value as a result of the issuers’ financial restructuring or default. There can be no assurance that such price declines will not recur. The market for below investment grade debt issues generally is thinner and less active than that for higher quality securities, which may limit the Fund’s ability to sell such securities at fair value in response to changes in the economy or financial markets. Adverse publicity and investor perceptions, whether based on fundamental analysis, may also decrease the values and liquidity of below investment grade debt securities, especially in a thinly traded market. Changes in the rating of a fixed income security by recognized rating services may affect the value of these investments. The Fund will not necessarily dispose of a security when its rating is reduced below its rating at the time of purchase. However, the Adviser or a Sub-Adviser will monitor the investment to determine whether continued investment in the security will assist in meeting the Fund’s investment objective.

U.S. Government Securities. The Fund may invest in U.S. Government Securities. U.S. Government Securities include securities which are issued or guaranteed by the United States Treasury, by various agencies of the United States Government, and by various instrumentalities which have been established or sponsored by the United States Government. U.S. Treasury obligations are backed by the “full faith and credit” of the United States Government. U.S. Treasury obligations include Treasury bills, Treasury notes, and Treasury bonds. U.S. Treasury obligations also include the separate principal and interest components of U.S. Treasury obligations which are traded under the Separate Trading of Registered Interest and Principal of Securities (“STRIPS”) program.

Agencies or instrumentalities established by the United States Government include the Federal Home Loan Banks, the Federal Land Bank, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Student Loan Marketing Association, the Small Business Administration, the Bank for Cooperatives, the Federal Intermediate Credit Bank, the Federal Financing Bank, the Federal Farm Credit Banks, the Federal Agricultural Mortgage Corporation, the Resolution Funding Corporation, the Financing Corporation of America and the Tennessee Valley Authority. Some of these securities are supported by the full faith and credit of the United States Government while others are supported only by the credit of the agency or instrumentality, which may include the right of the issuer to borrow from the United States Treasury. In the case of securities not backed by the full faith and credit of the United States, the investor must look principally to the agency issuing or guaranteeing the obligation for ultimate repayment, and may not be able to assert a claim against the United States in the event the agency or instrumentality does not meet its commitments. Shares of the Fund are not guaranteed or backed by the United States Government.

When a U.S. Treasury notes or bond is “stripped”, each interest payment provided for by the note or bond and the principal due on the bond or note at maturity trade as separate securities. Its value to an investor consists of the difference between its face value at the time of maturity and the price for which it was acquired, which is generally an amount significantly less than its face value. Investing in STRIPS may help to preserve capital during periods of declining interest rates.

Since STRIPS do not entitle the holder to any periodic payments of interest prior to maturity, such securities usually trade at a deep discount from their face or par value and will be subject to greater fluctuations of market value in response to changing interest rates than fixed income obligations of comparable maturities which make periodic distributions of interest. On the other hand, because there are no periodic interest payments to be reinvested prior to maturity, STRIPS eliminate the reinvestment risk and lock in a rate of return to maturity. Current federal tax law requires that a holder of a STRIP security accrue a portion of the discount at which the security was purchased as income each year even though the holder received no interest payment in cash on the security during the year.

Commercial Paper. Commercial paper consists of short-term (usually from one to two hundred seventy days) unsecured promissory notes issued by corporations in order to finance their current operations. Certain notes may have floating or variable rates. Unless deemed liquid by the Adviser or a Sub-Adviser, variable and floating rate notes with a demand notice period exceeding seven days generally are considered illiquid and, therefore, subject to the Trust’s prohibition on illiquid investments (see “Investment Limitations” below).

Repurchase Agreements. The Fund may enter into repurchase agreements which are transactions in which the Fund purchases a security and simultaneously agrees to resell that security to the seller at an agreed upon price on an agreed upon future date, normally, one to seven days later. If the Fund enters into a repurchase agreement, it will maintain possession of the purchased securities and any underlying collateral. For purposes of the 1940 Act, a repurchase agreement is deemed to be a loan from the Fund to the seller of the U.S. government security subject to the repurchase agreement. Repurchase agreements are not considered to be the making of loans for purposes of the Fund’s fundamental investment limitations.

Repurchase transactions also involve credit risk. Credit risk is the risk that a counter-party to a transaction will be unable to honor its financial obligation. In the event that bankruptcy, insolvency or similar proceedings are commenced against a counterparty, the Fund may have difficulties in exercising its rights to the underlying securities or currencies, as applicable. The Fund may incur costs and expensive time delays in disposing of the underlying securities and it may suffer a loss of principal or a decline in interest payments regarding affected securities. Failure by the other party to deliver a security or currency purchased by the Fund may result in a missed opportunity to make an alternative investment. Favorable insolvency laws that allow the Fund, among other things, to liquidate the collateral held in the event of the bankruptcy of the counter-party reduce counter-party insolvency risk.

G. Rights and Warrants to Purchase Securities

A right is a privilege granted to existing shareholders of a corporation to subscribe for shares of a new issue of common stock before it is issued. Rights normally have a short life, usually two to four weeks, are freely transferable and entitle the holder to buy the new common stock at a lower price than the public offering price. Warrants are securities that are usually issued together with a debt security or preferred stock and that give the holder the right to buy a proportionate amount of common stock at a specified price. Warrants are freely transferable and are often traded on major exchanges. Unlike rights, warrants normally have a life that is measured in years and entitle the holder to buy common stock of a company at a price that is usually higher than the market price at the time the warrant is issued. Corporations often issue warrants to make the accompanying debt security more attractive.

Risks of Warrants and Rights. Warrants and rights may entail greater risks than certain other types of investments. Generally, rights and warrants do not carry the right to receive dividends or exercise voting rights with respect to the underlying securities, and they do not represent any rights in the assets of the issuer. In addition, their value does not necessarily change with the value of the underlying securities, and they cease to have value if they are not exercised on or before their expiration date. If the market price of the underlying stock does not exceed the exercise price during the life of the warrant or right, the warrant or right will expire worthless. Rights and warrants may increase the potential profit or loss to be realized from the investment as compared with investing the same amount in the underlying securities. Similarly, the percentage increase or decrease in the value of an equity security warrant may be greater than the percentage increase or decrease in the value of the underlying common stock.

Warrants may relate to the purchase of equity or debt securities. Debt obligations with warrants attached to purchase equity securities have many characteristics of convertible securities and their prices may, to some degree, reflect the performance of the underlying stock. Debt obligations also may be issued with warrants attached to purchase additional debt securities at the same coupon rate. A decline in interest rates would permit the Fund to sell such warrants at a profit. If interest rates rise, these warrants would generally expire with no value.

H. Repurchase Agreements

For the purposes of maintaining liquidity and achieving income, the Fund may enter into repurchase agreements with domestic commercial banks or registered broker/dealers. A repurchase agreement is a contract under which a Fund would acquire a security for a relatively short period (usually not more than one week) subject to the obligation of the seller to repurchase and the Fund to resell such security at a fixed time and price (representing the Fund's cost plus interest). In the case of repurchase agreements with broker-dealers, the value of the underlying securities (or collateral) will be at least equal at all times to the total amount of the repurchase obligation, including the interest factor.

Risks of Repurchase Agreements. The Fund bears a risk of loss in the event that the other party to a repurchase agreement defaults on its obligations and the Fund is delayed or prevented from exercising its rights to dispose of the collateral securities. This risk includes the risk of procedural costs or delays in addition to a loss on the securities if their value should fall below their repurchase price. The Adviser will monitor the creditworthiness of the counterparties.

I. Cyber Security Risk

Risks of Cyber Security. With the increased use of technologies such as the Internet and the dependence on computer systems to perform necessary business functions, investment companies (such as the Fund) and their service providers (including the Adviser) may be prone to operational and information security risks resulting from cyber-attacks and/or other technological malfunctions. In general, cyber-attacks are deliberate, but unintentional events may have similar effects. Cyber-attacks include, among others, stealing or corrupting data maintained online or digitally, preventing legitimate users from accessing information or services on a website, releasing confidential information without authorization, and causing operational disruption. Successful cyber-attacks against, or security breakdowns of, the Fund, the Adviser, or a custodian, transfer agent, or other affiliated or third-party service provider may adversely affect the Fund or its shareholders. For instance, cyber-attacks may interfere with the processing of shareholder transactions, affect the Fund's ability to calculate its NAV, cause the release of private shareholder information or confidential Fund information, impede trading, cause reputational damage, and subject the Fund to regulatory fines, penalties or financial losses, reimbursement or other compensation costs, and additional compliance costs. While the Adviser has established business continuity plans and systems designed to prevent cyber-attacks, there are inherent limitations in such plans and systems including the possibility that certain risks have not been identified. Similar types of cyber security risks also are present for issuers of securities in which the Fund invests, which could result in material adverse consequences for such issuers, and may cause the Fund's investment in such securities to lose value.

J. Market Events

Risks of Market Events. U.S. and international markets have from time to time experienced significant volatility. The fixed income markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties. Concerns have spread to domestic and international equity markets. In some cases, the stock prices of individual companies have been negatively affected even though there may be little or no apparent degradation in the financial conditions or prospects of that company. Continued volatility, may have adverse effects on the Fund and the risks discussed below may be increased.

INVESTMENT LIMITATIONS

A. Fundamental Limitations

The investment limitations described below have been adopted by the Trust with respect to the Fund and are fundamental (“Fundamental”), *i.e.*, they may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and this SAI, the term “majority of the outstanding shares” of the Fund means the lesser of (1) 67% or more of the outstanding shares of the Fund present at a meeting, if the holders of more than 50% of the outstanding shares of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding shares of the Fund. Other investment practices which may be changed by the Board without the approval of shareholders to the extent permitted by applicable law, regulation or regulatory policy are considered non-fundamental (“Non-Fundamental”).

Borrowing Money. The Fund will not borrow money, except (a) from a bank, provided that immediately after such borrowing there is an asset coverage of 300% for all borrowings of the Fund; or (b) from a bank or other persons for temporary purposes only, provided that such temporary borrowings are in an amount not exceeding 5% of the Fund’s total assets at the time when the borrowing is made. This limitation does not preclude the Fund from entering into reverse repurchase transactions, provided that the Fund has an asset coverage of 300% for all borrowings and repurchase commitments of the Fund pursuant to reverse repurchase transactions.

Senior Securities. The Fund will not issue senior securities. This limitation is not applicable to activities that may be deemed to involve the issuance or sale of a senior security by the Fund, provided that the Fund’s engagement in such activities is consistent with or permitted by the 1940 Act, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.

Underwriting. The Fund will not act as underwriter of securities issued by other persons. This limitation is not applicable to the extent that, in connection with the disposition of portfolio securities (including restricted securities), the Fund may be deemed an underwriter under certain federal securities laws.

Real Estate. The Fund will not purchase or sell real estate. This limitation is not applicable to investments in marketable securities which are secured by or represent interests in real estate. This limitation does not preclude the Fund from investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including REITs).

Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options or futures contracts, including commodities futures contracts, from investing in securities or other instruments backed by commodities or from investing in companies which are engaged in a commodities business or have a significant portion of their assets in commodities.

Loans. The Fund will not make loans to other persons, except (a) by loaning portfolio securities, (b) by engaging in repurchase agreements, dollar rolls and similar transactions consistent with applicable law, or (c) by purchasing non-publicly offered debt securities. For purposes of this limitation, the term “loans” shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other securities.

Concentration. The Fund may not invest in a security if, as a result of such investment, more than 25% of its net assets (taken at market value at the time of such investment) would be invested in the securities of issuers in any particular “industry,” as the term is used in the 1940 Act, as interpreted, modified or otherwise permitted from time to time by regulatory authority having jurisdiction. This restriction does not apply to securities issued or guaranteed by the U.S. Government or its agencies or instrumentalities (or repurchase agreements with respect thereto).

With respect to the percentages adopted by the Trust as maximum limitations on the Fund’s investment policies and limitations, an excess amount above the fixed percentage will not be a violation of the policy or limitation unless the excess amount results immediately and directly from the acquisition of any security or the action taken. This paragraph does not apply to the borrowing policy set forth above.

If the Fund’s borrowings exceed one-third of its total assets (including the amount borrowed) less liabilities (other than borrowings), such borrowings will be reduced within three days, (not including Sundays and holidays) or such longer period as may be permitted by the 1940 Act, to the extent necessary to comply with the one-third limitation.

Notwithstanding any of the foregoing limitations, any investment company, whether organized as a trust, association or corporation, or a personal holding company, may be merged or consolidated with or acquired by the Trust, provided that if such merger, consolidation or acquisition results in an investment in the securities of any issuer prohibited by said paragraphs, the Trust shall, within ninety days after the consummation of such merger, consolidation or acquisition, dispose of all of the securities of such issuer so acquired or such portion thereof as shall bring the total investment therein within the limitations imposed by said paragraphs above as of the date of consummation.

B. Non-Fundamental

The following limitations have been adopted by the Trust with respect to the Fund and are Non-Fundamental (see “Investment Limitations—Fundamental Limitations” above).

Pledging. The Fund not will mortgage, pledge, hypothecate or in any manner transfer, as security for indebtedness, any assets of the Fund except as may be necessary in connection with borrowings described in limitation (1) above. Margin deposits, security interests, liens and collateral arrangements with respect to transactions involving options, futures contracts, short sales and other permitted investments and techniques are not deemed to be a mortgage, pledge or hypothecation of assets for purposes of this limitation.

Borrowing. The Fund will not purchase any security while borrowings (including reverse repurchase agreements) representing more than 5% of its total assets are outstanding.

Illiquid Securities. The Fund will not invest greater than 15% of its net assets in illiquid or restricted securities.

INVESTMENT MANAGEMENT

A. General Information

Alta Capital Management, LLC (the “Adviser”), a registered investment adviser located at 6440 South Wasatch Boulevard, Suite 260, Salt Lake City, Utah 84121, serves as investment adviser to the Fund. Founded in 1981, the Adviser provides an unparalleled level of performance and service to high-net-worth individuals, mutual funds, and other institutional investors.

Guardian Capital LLC directly controls the Adviser through its ownership interest in the firm.

B. Investment Advisory Agreement

Under the terms of the Investment Advisory Agreement with the Trust, the Adviser is primarily responsible for managing the Fund's investments and providing a continuous investment program for the Fund, subject to the supervision of the Board. The Fund pays the Adviser a fee computed and accrued daily and paid monthly at an annual rate of 0.75% of average daily net assets of the Fund. The fee, if not waived, is assessed to each Fund class based on average daily net assets for the prior month.

The Adviser has contractually agreed to waive its management fee and/or reimburse expenses so that total annual operating expenses for the Fund (excluding (i) interest; (ii) taxes; (iii) brokerage fees and commissions; (iv) other extraordinary expenses not incurred in the ordinary course of the Fund's business; (v) dividend expense on short sales; (vi) distribution and/or 12b-1 fees, and (vii) indirect expenses such as acquired fund fees and expenses) do not exceed 0.79% of the Fund's average daily net assets through January 31, 2020 (the "Expense Limitation"). The Expense Limitation is expected to roll over from year to year thereafter. During any fiscal year that the Investment Advisory Agreement between the Adviser and Trust is in effect, the Adviser may recoup the sum of all fees previously waived or expenses reimbursed, less any reimbursement previously paid, provided that the Adviser is only permitted to recoup fees or expenses within 36 months from the date the fee waiver or expense reimbursement first occurred and provided further that such recoupment can be achieved within the Expense Limitation Agreement currently in effect and the Expense Limitation Agreement in place when the waiver/reimbursement occurred. This Expense Limitation Agreement may not be terminated by the Adviser prior to its expiration date, but the Board may terminate such agreement at any time. The Expense Limitation Agreement terminates automatically upon the termination of the Advisory Agreement with the Adviser.

The Investment Advisory Agreement between the Trust and the Adviser was approved by the Board, including a majority of Trustees who are not "interested persons" of the Trust, as that term is defined under the 1940 Act, or interested parties to the Agreement (collectively, the "Independent Trustees" and, each an "Independent Trustee"), at an in-person meeting held on December 18, 2018. A discussion of the factors that the Board considered in approving the Investment Advisory Agreement will be included in the Fund's semi-annual report to shareholders for the fiscal period ending March 31, 2019.

C. Payments to Financial Institutions

The Adviser may pay certain financial institutions (which may include banks, broker-dealers and other industry professionals) a fee for providing distribution related services and/or for performing certain administrative servicing functions for Fund shareholders to the extent these institutions are allowed to do so by applicable statute, rule or regulation. These financial institutions may charge their customers fees for offering these services to the extent permitted by applicable regulatory authorities, and the overall return to those shareholders availing themselves of these services will be lower than to those shareholders who do not. The Fund may from time to time purchase securities issued by financial institutions that provide such services; however, in selecting investments for the Fund, no preference will be shown for such securities.

D. The Portfolio Managers

Other Accounts Managed By Portfolio Managers. The table below identifies the number of accounts managed (excluding the Fund) and the total assets in such accounts, within each of the following categories: registered investment companies, other pooled investment vehicles and other accounts. The Portfolio Managers do not manage any other registered investment companies or any accounts with performance-based advisory fees. Information in the table is shown as of November 30, 2018. Asset amounts are approximate and have been rounded.

Team Member	Registered Investment Companies		Pooled Investment Vehicles		Other Accounts	
	Number	Market Value	Number	Market Value	Number	Market Value
Melanie Peche ⁽¹⁾	2	\$286,078,816	0	\$0	1,283	\$2,955,006,649
Michael O. Tempest ⁽¹⁾	2	\$286,078,816	0	\$0	1,283	\$2,955,006,649

(1) Ms. Peche and Mr. Tempest jointly manage the Registered Investment Companies and Other Accounts reported herein.

Compensation. The portfolio managers are compensated with a fixed salary, a variable equity distribution based on ownership percentage and a discretionary bonus. They are each principals of Alta Capital Management, LLC, and therefore share in the Adviser's profits. A significant portion of their annual compensation is directly tied to the overall success of the firm through income distributions. This model incents all senior members of the team to provide top performance in their role as their individual contribution helps the success of the overall firm.

Ownership of Fund Shares. As of November 30, 2018, each member of the portfolio management team beneficially owned shares of the Fund as summarized in the following table:

Fund/Strategy Team Member	Dollar Range of Beneficial Ownership in the Fund as of November 30, 2018
Melanie Peche	None
Michael O. Tempest	None

Potential Conflicts of Interest. As a general matter, certain actual or apparent conflicts of interest may arise in connection with a portfolio manager's management of the Fund's investments, on the one hand, and the investments of other accounts for which the portfolio manager is responsible, on the other. For example, the management of multiple accounts may result in portfolio manager devoting unequal time and attention to the management of each account. Although the Adviser does not track the time a Portfolio Manager spends on a single portfolio, it does periodically assess whether the Portfolio Manager has adequate time and resources to effectively manage all of the accounts for which he or she is responsible. Moreover, variances in advisory fees charged from account to account may create an incentive for the Portfolio Manager to devote more attention to those accounts that pay higher advisory fees. It is also possible that the various accounts managed could have different investment strategies that, at times, might conflict with one another.

While the Adviser does not anticipate any conflicts between the Fund's investments and other accounts that it manages, in particular due to the fact that the clear majority of investments in both accounts are highly liquid with ample trading volume which will not restrict freedom of movement in either account, to the extent that the same investment opportunities might be desirable for more than one account, possible conflicts could arise in determining how to allocate them. Other potential conflicts might include those relating to selection of brokers or dealers to execute portfolio trades and/or specific uses of commissions from portfolio trades (for example, research, or "soft dollars").

The Adviser has adopted and implemented policies and procedures, including brokerage and trade allocation policies and procedures, which it believes address the conflicts associated with managing multiple accounts for multiple clients.

TRUSTEES AND OFFICERS

A. General Information

The Board supervises the business activities of the Trust and is responsible for protecting the interests of shareholders. The Chairman of the Board is Walter B. Grimm, who is an Independent Trustee of the Trust.

Each Trustee serves as a Trustee for the lifetime of the Trust or until the earlier of his or her retirement as a Trustee at age 78, death, resignation or removal. Officers are re-elected annually by the Board. The address of each Trustee and officer is 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246.

As of the date of this SAI, the Trustees oversee the operations of 15 series.

Interested Trustee Background. The following table provides information regarding the Interested Trustee.

Name, Address, (Age), Position with Trust, Term of Position with Trust	Principal Occupation During Past 5 Years and Other Directorships
Robert G. Dorsey* Age: 61 TRUSTEE Began Serving: March 2017	<p>Principal Occupation(s): Managing Director and Co-Chief Executive Officer of Ultimus Fund Solutions, LLC and its subsidiaries, except as otherwise noted for the FINRA-regulated broker-dealer entities (1999 to present); Interested Trustee of Ultimus Managers Trust (February 2012 to present).</p> <p>Previous Position(s): President of Ultimus Fund Distributors, LLC (1999 to 2018); President of Ultimus Managers Trust (February 2012 to October 2013).</p>

* Mr. Dorsey is considered an “interested person” of the Trust within the meaning of Section 2(a)(19) of the 1940 Act because of his relationship with the Trust’s administrator, transfer agent, and distributors.

Independent Trustee Background. The following table provides information regarding the Independent Trustees.

Name, Address, (Age), Position with Trust, Term of Position with Trust	Principal Occupation During Past 5 Years and Other Directorships
John C. Davis Age: 66 TRUSTEE Began Serving: July 2018	<p>Principal Occupations(s): Consultant (government services) since May 2011. Consultant, Board of Trustees of Ultimus Managers Trust (since 2016).</p> <p>Previous Position(s): Retired Partner of PricewaterhouseCoopers LLP (1974-2010); Former Trustee of Ultimus Managers Trust (2012-2016).</p>
Walter B. Grimm Age: 73 TRUSTEE AND CHAIR Began Serving: November 2013	<p>Principal Occupations(s): President, Leigh Management Group, LLC (consulting firm) (October 2005 to present); and President, Leigh Investments, Inc. (1988 to present).</p> <p>Previous Position(s): Chief Financial Officer, East West Private, LLC (consulting firm) (2009 to 2013).</p>
Lori Kaiser Age: 55 TRUSTEE Began Serving: July 2018	<p>Principal Occupations(s): Founder and CEO, Kaiser Consulting since 1992.</p>
Janet Smith Meeks Age: 63 TRUSTEE Began Serving: July 2018	<p>Principal Occupations(s): Co-Founder and CEO, Healthcare Alignment Advisors, LLC (consulting company) since August 2015.</p> <p>Previous Position(s): President and Chief Operating Officer, Mount Carmel St. Ann’s Hospital (2004-2015).</p>
Mary M. Morrow Age: 60 TRUSTEE Began Serving: November 2013	<p>Principal Occupations(s): Chief Operating Officer, Dignity Health Managed Services Organization (October 2018 to present).</p> <p>Previous Position(s): Consultant (managed care services) (April 2018 to September 2018); Chief Operating Officer, Pennsylvania Health and Wellness (fully owned subsidiary of Centene Corporation) (November 2016 to April 2018); Vice President, Strategic Initiatives, Gateway Health (January 2015 to November 2016); Consulting Practice Manager, DST Health Solutions (August 2010 to January 2015); Director, Service and Client Relations, EBDS (August 2008 – May 2009); Independent Consultant, Healthcare Servicing May 2009 – August 2010).</p>

Officers. The following table provides information regarding the Officers.

Name, Address, (Age), Position with Trust, Term of Position with Trust	Principal Occupation During Past 5 Years and Other Directorships
<p>Matthew J. Miller Age: 42 PRESIDENT and CHIEF EXECUTIVE OFFICER Began Serving: September 2013 (as VP); September 2018 (as President)</p>	<p>Principal Occupation(s): Assistant Vice President, Relationship Management, Ultimus Fund Solutions, LLC (December 2015 to present); Vice President, Valued Advisers Trust (December 2011 to present).</p> <p>Previous Position(s): Vice President, Capitol Series Trust (September 2013 to March 2017); Chief Executive Officer and President, Capitol Series Trust (March 2017 to March 2018); Secretary, Capitol Series Trust (March 2018 to September 2018); Vice President, Relationship Management, Huntington Asset Services, Inc. (n/k/a Ultimus Asset Services, LLC) (2008 to December 2015); Vice President, The Huntington Funds (February 2010 to April 2015); Vice President, Transfer Agency Operations, Huntington Asset Services, Inc. (2002 to 2008); Employed in various positions with Huntington Asset Services, Inc. (July 1998 to 2002).</p>
<p>Zachary P. Richmond Age: 38 TREASURER AND CHIEF FINANCIAL OFFICER Began Serving: August 2014</p>	<p>Principal Occupation(s): Assistant Vice President, Associate Director of Financial Administration, Ultimus Fund Solutions, LLC (December 2015 to present); Treasurer and Chief Financial Officer, Unified Series Trust (August 2014 to present); Treasurer and Chief Financial Officer, Commonwealth International Series Trust (September 2015 to present).</p> <p>Previous Position(s): Assistant Vice President, Fund Administration, Huntington Asset Services, Inc. (n/k/a Ultimus Asset Services, LLC) (January 2011 to December 2015); and Assistant Treasurer, Unified Series Trust (2011 to August 2014).</p>
<p>Brandon Kipp Age: 35 CHIEF COMPLIANCE OFFICER Began Serving: October 2017</p>	<p>Principal Occupation(s): Senior Fund Compliance Officer, Ultimus Fund Solutions, LLC (since July 2017) and Chief Compliance Officer, Valued Advisers Trust (since October 2017).</p> <p>Previous Position(s): Assistant Vice President and Compliance Manager, UMB Fund Services, Inc. (March 2014 to July 2017); Officer and Lead Fund Administrator, UMB Fund Services, Inc. (May 2012 to March 2014).</p>

Name, Address, (Age), Position with Trust, Term of Position with Trust	Principal Occupation During Past 5 Years and Other Directorships
Matthew J. Beck Age: 30 SECRETARY Began Serving: September 2018	Principal Occupation(s): Senior Attorney, Ultimus Fund Solutions, LLC (since May 2018) and Secretary, Ultimus Managers Trust (since July 2018). Previous Position(s): Chief Compliance Officer, OBP Capital, LLC (May 2015 to May 2018); Secretary, Aspiration Funds (March 2015 to May 2018); Secretary, Starboard Investment Trust (September 2014 to May 2018); Secretary, Leeward Investment Trust (September 2014 to May 2018); Secretary, Hillman Capital Management Investment Trust (September 2014 to May 2018); Secretary, Spinnaker ETF Series (September 2014 to May 2018); Vice President and General Counsel, The Nottingham Company (July 2014 to May 2018).
Stephen L. Preston Age: 52 ANTI-MONEY LAUNDERING OFFICER Began Serving: December 2016	Principal Occupation(s): Chief Compliance Officer, Ultimus Fund Solutions, LLC and Ultimus Fund Distributors, LLC from June 2011 to present.

B. Qualifications of the Trustees

In addition to the information provided above, below is a summary of the specific experience, qualifications, attributes or skills of each Trustee and the reason why he or she was selected to serve as Trustee:

Mr. John C. Davis –Mr. Davis is a Retired Partner of PricewaterhouseCoopers LLP (“PWC”), where he worked from 1974-2010. He has been a Consultant since May 2011. During his career at PWC, Mr. Davis’ client service experiences encompassed domestic and international financial reporting, accounting, auditing, business structuring, tax, governance and compliance for companies in a variety of industries, including banking, insurance, asset management, credit, distribution, venture capital, private equity, and capital markets. From 2012 through 2016, Mr. Davis served as a Trustee of Ultimus Managers Trust. During his tenure as a Trustee, Mr. Davis served as financial expert, lead independent director and as chair of the Board of Trustees. Since 2016, he has served as a consultant to the Board of Trustees of Ultimus Managers Trust, providing planning, compliance and business advice to the Board on a broad range of trustee oversight and regulatory matters. Mr. Davis was selected to serve as a Trustee based on his extensive mutual fund industry experience, mutual fund board/corporate governance experience, and financial/auditing expertise. Mr. Davis has been a Trustee since July 2018. Mr. Davis graduated from Indiana State University with a degree in Accounting. Mr. Davis also serves as the Chair of the Trust’s Valuation Committee and has been designated as an “audit committee financial expert” to the Trust’s Audit Committee, as that designation is defined by SEC rules.

Mr. Robert G. Dorsey – Mr. Dorsey is a co-founder of Ultimus Fund Solutions, LLC (“Ultimus”) and Ultimus Fund Distributors, LLC. He has served as Managing Director of both since their founding in 1999. He also serves as Co-CEO of Ultimus and its subsidiaries, except as otherwise noted for the FINRA-regulated broker-dealer entities. Mr. Dorsey has over 30 years of experience in the mutual fund servicing industry. He has been a Trustee since March 2017. Mr. Dorsey previously served as Chair of the Board from March 2017 to March 2018. He has also served as an Interested Trustee on the Board of the Ultimus Managers Trust since February 2012. Mr. Dorsey holds a B.S. from Christian Brothers University and is a Certified Public Accountant (inactive).

Mr. Walter B. Grimm – Mr. Grimm has over 20 years of experience in the financial services industry, including as a trustee of other mutual funds and as the head of Client Services and Relationship Management areas for a mutual fund servicing company. He was selected to serve as a Trustee of the Trust based primarily on his extensive knowledge of mutual fund operations. Mr. Grimm has been a Trustee since November 2013 and began serving as Chair of the Board in March 2018.

Ms. Lori Kaiser - Ms. Kaiser is the CEO of Kaiser Consulting, an international professional services firm that she founded in 1992, which specializes in accounting, finance and IT consulting. She is a Certified Public Accountant and a Chartered Global Management Accountant, with over 20-years' experience serving the needs of auto/auto-parts manufacturers and various other industries, including financial, communications, not-for-profits, mutual funds, and insurance. She advises executive management on issues of risk identification and mitigation, mergers, acquisitions and integrations. Prior to Kaiser Consulting, Ms. Kaiser was the Chief Financial Officer at Lowestpremium.com, an online insurance aggregator enabling users to search for the lowest auto insurance rates. Earlier in her career, Ms. Kaiser served as Corporate Controller for Nationwide Communications, Inc., the media subsidiary of Nationwide Insurance Company, and she began her career in the audit practice of KPMG, LLP in Columbus, Ohio.

Ms. Kaiser has board and community service experience with a variety of organizations. She is a member of the Advisory Board of both the Center for Business Leadership and the Accounting Department at Miami University. For the Women's Fund of Central Ohio's Board of Directors, Ms. Kaiser serves as the Treasurer and as a member of the Executive, Finance and Audit Committees. Ms. Kaiser recently completed a three-year term on the Board of Directors of the National Association of Women Business Owners, where she also served as Treasurer and as a member of the Executive Committee. As a member of the Columbus Chamber of Commerce, she serves on its Small Business Council. Ms. Kaiser was selected to serve as a Trustee as a result of her board and executive level leadership experience, as well as her extensive financial, IT and risk management experience. Ms. Kaiser has been a Trustee since July 2018. Ms. Kaiser earned an MBA with honors from the University of Chicago and received a BS from Miami University, graduating cum laude. In addition, she is an adjunct professor in the MBA Program at Ohio State University Fisher School of Business. Ms. Kaiser also serves as Chair of the Trust's Audit Committee and has been designated as an "audit committee financial expert" to the Trust's Audit Committee, as that designation is defined by SEC rules.

Ms. Janet S. Meeks - Ms. Meeks has 38 years of experience in the healthcare and financial services industries. Ms. Meeks founded healthcare Alignment Advisers, LLC in 2015, a consulting company located in Westerville, Ohio, that provides advice to healthcare executives with respect to, among other things, strategy development and implementation and currently serves as the Chief Executive Officer. Ms. Meeks previously served for nine years as President and Chief Operating Officer of Mount Carmel St. Ann's Hospital (MCSA), a regional medical center located in Columbus, Ohio. Prior to that, she served in executive roles for four nationally known healthcare systems, including Trinity Health and Vanderbilt University Medical Center. Before entering the healthcare sector, Ms. Meeks worked in the financial services industry for Bank of Mississippi.

As an experienced corporate director, Ms. Meeks currently serves on the Board of Directors of National Church Residences, serves as a faculty member of both the AHA Society for Healthcare Planning and Marketing National Conferences and the Healthcare Strategy Institute National Conferences, and is an Instructor at the University of Mississippi School of Business Administration. Ms. Meeks has published extensively and is an accomplished speaker. Ms. Meeks was selected to serve as a Trustee as a result of her board and executive level leadership experience and her extensive financial industry, marketing and strategy expertise. Ms. Meeks has been a Trustee since July 2018. Ms. Meeks is a two-time graduate of the University of Mississippi, where she received an undergraduate degree in banking and finance and an MBA in finance.

Ms. Mary M. Morrow - Ms. Morrow has over 25 years of experience in customer service, processing operations, and systems implementation experience both in the managed care and financial services arenas. Prior to work in the managed care arena, Mr. Morrow served as the Vice President in charge of Business Applications for a large mutual fund company and as a Senior Vice President of Transfer Agency Operations for a mutual fund services provider. She was selected to serve as a Trustee of the Trust based primarily on her significant corporate experience as well as her operational knowledge of mutual fund operations. Ms. Morrow has been a Trustee since November 2013. Ms. Morrow also serves as Chair of the Nominating Committee.

C. Risk Management

The overall management and affairs of the Trust are supervised by the Board. The Board consists of six individuals. The Trustees are fiduciaries and are governed by the laws of the State of Ohio in this regard. The Board establishes policies for the operation of the Trust and appoints the officers who conduct the daily business of the Trust. The Board provides oversight over the management and operations of the Trust. The day-to-day responsibility for the management and operation of the Trust is the responsibility of various officers and service providers to the Trust and its individual series, such as the Adviser, Distributor, administrator, custodian, and Transfer Agent, each of whom are discussed in greater detail in this SAI. The Board approves all significant agreements between the Trust and its service providers, including the agreements with the Adviser, Distributor, administrator, custodian and Transfer Agent. The Board has appointed various individuals of certain of these service providers as officers of the Trust, with responsibility to monitor and report to the Board on the Trust's day-to-day operations. In all cases, the role of the Board and of any individual Trustee is one of oversight and not of management of the day-to-day affairs of the Trust and its oversight role does not make the Board a guarantor of the Trust's investments, operations or activities.

The Board has structured itself in a manner that it believes allows it to effectively perform its oversight function. The Board is comprised of five Independent Trustees – Mr. John C. Davis, Mr. Walter Grimm, Ms. Lori Kaiser, Ms. Janet S. Meeks and Ms. Mary Morrow – and one Interested Trustee – Mr. Robert G. Dorsey. Accordingly, five-sixths of the members of the Board are Independent Trustees and are not affiliated with any investment adviser to the Trust or their respective affiliates or other service providers to the Trust or any Trust series. The Board has established three standing committees, an Audit Committee, a Nominating Committee and a Valuation Committee, which are discussed in greater detail below. Each of the Audit Committee and Nominating Committee is comprised entirely of Independent Trustees. The Valuation Committee is comprised of all of the Trustees of the Trust, including the Independent Trustees, plus the Trust’s President/Principal Executive Officer and its Treasurer/Principal Financial Officer. Non-Trustee members of the Valuation Committee serve as non-voting members.

As part of its efforts to oversee risk management associated with the Trust, the Board has established the Audit Committee, the Nominating Committee and the Valuation Committee as described below:

- The Audit Committee consists of all of the Independent Trustees. The Audit Committee is responsible for overseeing the Trust’s accounting and financial reporting policies and practices, internal controls and, as appropriate, the internal controls of certain service providers; overseeing the quality and objectivity of financial statements and the independent audits of the financial statements; and acting as a liaison between the independent auditors and the full Board.
- The Nominating Committee consists of all of the Independent Trustees. The Nominating Committee is responsible for identifying and nominating Trustee candidates to the full Board. The Nominating Committee will consider nominees recommended by shareholders. Recommendations should be submitted to the Nominating Committee in care of the Trust.
- The Valuation Committee consists of all of the Trustees plus the Trust’s President/Principal Executive Officer and its Treasurer/Principal Financial Officer. Non-Trustee members of the Valuation Committee serve as non-voting members. The Valuation Committee is responsible for reviewing and approving fair valuation determinations pursuant to the Trust’s Portfolio Valuation Procedures. As part of its function, the Valuation Committee considers all fair value pricing methodologies proposed by the Pricing Review Committee (comprised of various officers of the Trust, Ultimus representatives, and representatives of the adviser, as necessary), and approves such methodologies, and any amendments thereto, before they are implemented.

The Audit Committee generally meets at least annually. The Audit Committee reviews reports provided by administrative service providers, legal counsel and independent accountants. The Nominating Committee and Valuation Committee meet as needed. The Committees report directly to the Board. No committee has convened with respect to matters relating to the Fund since, as of the date of this SAI, the Fund had not commenced operations. The inclusion of all Independent Trustees as members of the Audit Committee, Nominating Committee and Valuation Committee allow all such Trustees to participate in the full range of the Board’s oversight duties, including oversight of risk management processes.

The Independent Trustees have engaged their own independent legal counsel to provide advice on regulatory, compliance and other topics. In addition, the Board has engaged on behalf of the Trust a full-time Chief Compliance Officer (“CCO”) who is responsible for overseeing compliance risks. The CCO reports to the Board at least quarterly any material compliance items that have arisen, and on an annual basis provides to the Board a comprehensive compliance report outlining the effectiveness of compliance policies and procedures of the Trust and its service providers. As part of the CCO’s risk oversight function, the CCO seeks to understand the risks inherent in the operations of the Trust’s series and their advisers and sub-advisers. Periodically the CCO provides reports to the Board that:

- Assess the quality of the information the CCO receives from internal and external sources;
- Assess how Trust personnel monitor and evaluate risks;
- Assess the quality of the Trust's risk management procedures and the effectiveness of the Trust's organizational structure in implementing those procedures;
- Consider feedback from and provide feedback regarding critical risk issues to administrative and advisory personnel responsible for implementing risk management programs; and
- Consider economic, industry, and regulatory developments, and recommend changes to the Trust's compliance programs as necessary to meet new regulations or industry developments.

The Trustees meet on a quarterly basis, typically for 1-2 days of meetings. Trustees also participate in special meetings and conference calls as needed. In addition to Board meetings, Trustees may participate in teleconferences to review and discuss 15(c) materials, and to interview advisers and sub-advisers whose contracts are up for renewal at the next regularly scheduled Board meeting. Legal counsel to the Trust provides quarterly reports to the Board regarding regulatory developments. On a quarterly basis, the Trustees review and discuss some or all of the following compliance and risk management reports relating to the series of the Trust:

- Fund Performance/Morningstar Report/Portfolio Manager's Commentary
- Code of Ethics review
- NAV Errors, if any
- Distributor Compliance Reports
- Timeliness of SEC Filings
- Dividends and other Distributions
- List of Brokers, Brokerage Commissions Paid and Average Commission Rate
- Review of 12b-1 Payments
- Multiple Class Expense Reports
- Anti-Money Laundering/Customer Identification Reports
- Administrator and CCO Compliance Reports
- Market Timing Reports

From time to time, one or more members of the Board may also meet with Trust officers in less formal settings, between formal Board meetings to discuss various topics.

The Board has not adopted a formal diversity policy. When soliciting future nominees for Trustee, the Nominating Committee will make efforts to identify and solicit qualified minorities and women.

The Board reviews its structure regularly in light of the characteristics and circumstances of the Trust, including the number of funds that comprise the Trust; the variety of asset classes that those funds reflect; the net assets of the Trust; and the distribution arrangements of the funds. At least annually, the Board conducts an assessment of the Board's and their individual effectiveness in overseeing the Trust. Based upon its assessment, the Board determines whether additional risk assessment or monitoring processes are required with respect to the Trust or any of its service providers.

Based on the qualifications of each of the Trust's Trustees and officers, the risk management practices adopted by the Board, including a regular review of several compliance and operational reports, and the committee structure adopted by the Board, the Trust believes that its leadership is appropriate.

D. Trustee Ownership of Shares of the Fund and of the Fund Complex

The following table provides information regarding shares of the Fund and other portfolios of the Trust owned by each Trustee as of December 31, 2017.

Trustee	Dollar Range of the Fund's Shares	Aggregate Dollar Range of Shares of All Series Within the Trust**
Interested Trustee		
Robert G. Dorsey	None	Over \$100,000
Independent Trustees		
John C. Davis	None	None
Walter B. Grimm	None	\$10,001 - \$50,000
Lori Kaiser	None	None
Janet Smith Meeks	None	None
Mary M. Morrow	None	None

** The Trust currently consists of 15 series.

Set forth below is the annual compensation paid to the Independent Trustees and by the Trust on an aggregate basis. No Interested Trustee or officer receives compensation from the Trust although all Trustee and officer travel expenses incurred to attend Board and committee meetings are reimbursed. Trustees' fees and Trustee and officer reimbursable travel expenses are Trust expenses and each Fund incurs its share of such expenses, which are allocated among the Funds in such manner as the Trustees determine to be fair and equitable.

Trustee	Compensation from the Fund	Total Compensation From Trust
Interested Trustee		
Robert G. Dorsey	None	None
Independent Trustees		
John C. Davis*	None	\$15,000
Walter B. Grimm*	None	\$25,500
Lori Kaiser*	None	\$15,000
Janet Smith-Meeks*	None	\$15,000
Mary M. Morrow*	None	\$25,500

* Estimated annual compensation for 2018. For the year ended December 31, 2017, Mr. Grimm and Ms. Morrow each received total compensation from the Trust in the amount of \$13,450. Mr. Davis, Ms. Kaiser and Ms. Meeks were not members of the Board during 2017, and therefore did not receive any compensation from the Trust during that period.

CONTROL PERSONS AND PRINCIPAL HOLDERS OF SECURITIES

As of November 30, 2018, the Trustees and officers of the Trust in the aggregate owned less than 1% of the outstanding shares of the Fund and each Fund class.

As of November 30, 2018, no shareholders of record owned 5% or more of the Institutional share class.

From time to time, certain shareholders may own a large percentage of the shares of the Fund. Accordingly, those shareholders may be able to greatly affect (if not determine) the outcome of a shareholder vote. As of November 30, 2018, no shareholders may be deemed to control the Fund. "Control" for this purpose is the ownership of more than 25% or more of the Fund's voting securities. The beneficial ownership, either directly or indirectly, of 25% or more of the voting securities of the Fund creates a presumption of control of the Fund, under Section 2(a) (9) of the 1940 Act. A controlling shareholder could control the outcome of any proposal submitted to the shareholders for approval, including changes to the Fund's fundamental policies or the terms of the management agreement with the Adviser.

PORTFOLIO TURNOVER

The Fund's portfolio turnover rate is calculated by dividing the lesser of long-term purchases or sales of portfolio securities for the fiscal year by the monthly average of the value of the portfolio securities owned by the Fund during the fiscal year. Since the Fund has yet to commence operations, no portfolio turnover information is available for its most recently completed fiscal year. Although the Fund's annual portfolio turnover rate cannot be accurately predicted, the Adviser anticipates that the Fund's portfolio turnover rate normally will be 25% or less. A 100% turnover rate would occur if all of the Fund's portfolio securities were replaced once within a one year period. High turnover involves correspondingly greater commission expenses and transaction costs, which will be borne directly by the Fund, and may result in the Fund recognizing greater amounts of income and capital gains, which would increase the amount of income and capital gains which the Fund must distribute to shareholders in order to maintain its status as a regulated investment company and to avoid the imposition of federal income or excise taxes (see "Taxes").

The Fund does not intend to use short-term trading as a primary means of achieving its investment objectives. Generally, the Fund intends to invest for long-term purposes. However, the rate of portfolio turnover will depend upon market and other conditions, and it will not be a limiting factor when the Adviser believes that portfolio changes are appropriate.

ANTI-MONEY LAUNDERING COMPLIANCE PROGRAM

Customer identification and verification is part of the Fund's overall obligation to prevent money laundering under federal law. The Trust has, on behalf of the Fund, adopted an anti-money laundering compliance program designed to prevent the Fund from being used for money laundering or financing of terrorist activities (the "AML Compliance Program"). The Trust has delegated the responsibility to implement the AML Compliance Program to the Fund's transfer agent, Ultimus Fund Solutions, LLC, subject to oversight by the CCO and, ultimately, by the Board.

When you open an account with the Fund, the transfer agent will request that you provide your name, physical address, date of birth, Social Security number or tax identification number. You may also be asked for other information that, in the transfer agent's discretion, will allow the Fund to verify your identity. Entities are also required to provide additional documentation. This information will be verified to confirm the identity of all persons opening an account with the Fund. The Fund reserves the right to (1) refuse, cancel or rescind any purchase order, (2) freeze any account and/or suspend account activities, or (3) involuntarily redeem your account in cases of threatening conduct or suspected fraudulent or illegal activity. These actions will be taken upon authorization of the Trust's anti-money laundering officer if they are deemed to be in the best interest of the Fund, or in cases where the Fund is requested or compelled to do so by governmental or law enforcement authority.

PORTFOLIO TRANSACTIONS AND BROKERAGE

Subject to policies established by the Board, the Adviser is responsible for the Fund's portfolio decisions and for placing of the Fund's portfolio transactions. In placing portfolio transactions, the Adviser seeks the best qualitative execution for the Fund, taking into account such factors as price (including the applicable brokerage commission or dealer spread), the execution capability, financial responsibility and responsiveness of the broker or dealer and the brokerage and research services provided by the broker or dealer. The Adviser generally seeks favorable prices and commission rates that are reasonable in relation to the benefits received.

The Adviser is specifically authorized to select brokers or dealers to provide brokerage and research services to the Fund and/or the other accounts over which it exercises investment discretion and to pay such brokers or dealers a commission in excess of the commission another broker or dealer would charge if it determines in good faith that the commission is reasonable in relation to the value of the brokerage and research services provided. The determination may be viewed in terms of a particular transaction, or the Adviser's overall responsibilities with respect to the Fund and to other accounts over which it exercises investment discretion.

Research services include securities and economic analyses, statistical services and information with respect to the availability of securities or purchasers or sellers of securities and analyses of reports concerning performance of accounts. The research services and other information furnished by brokers through whom the Fund effects securities transactions may also be used by the Adviser in servicing all of its accounts. Similarly, research and information provided by brokers or dealers serving other clients may be useful to the Adviser in connection with its services to the Fund. As the Fund has not yet commenced operations, no information is available concerning amounts the Adviser directed in brokerage transactions to brokers on the basis of research services provided by such brokers to the Adviser for the Fund's most recent fiscal year.

Purchases and sales of equity securities traded on an exchange are typically executed through broker-dealers that charge a commission. Commission rates are negotiable. Over-the-counter equity transactions will be placed either directly with principal market makers or with broker-dealers, if the same or a better price, including commissions and executions, is available. Fixed income securities are normally purchased directly from the issuer, an underwriter or a market maker. Purchases include a concession paid by the issuer to the underwriter and the purchase price paid to a market maker may include the spread between the bid and ask prices.

As the Fund has not yet commenced operations, the Fund does not own securities of regular broker/dealers and the Fund has not paid any commissions to affiliates.

CODE OF ETHICS

The Trust, the Adviser, and the Distributor have each adopted a Code of Ethics (the "Codes") pursuant to Rule 17j-1 of the 1940 Act and the Adviser's Code of Ethics also conforms to Rule 204A-1 under the Investment Advisers Act of 1940, as amended. The personnel subject to the Codes are permitted to invest in securities, including securities that may be purchased or held by the Fund. You may obtain copies of the Codes from the Trust, free of charge, by calling Shareholder Services at 1-800-957-0681.

DISCLOSURE OF PORTFOLIO HOLDINGS

The Fund is required to include a schedule of portfolio holdings in its annual and semi-annual reports to shareholders, which are sent to shareholders within 60 days of the end of the second and fourth fiscal quarters and filed with the Securities and Exchange Commission (the "SEC") on Form N-CSR within 70 days of the end of the second and fourth fiscal quarters. The Fund also is required to file a schedule of portfolio holdings with the SEC on Form N-Q within 60 days of the end of the first and third fiscal quarters. The Fund must provide a copy of the complete schedule of portfolio holdings as filed with the SEC to any shareholder of the Fund, upon request, free of charge. The Fund may also post its top ten portfolio positions as well as certain other portfolio characteristics such as sector or geographic weightings as of the end of each fiscal quarter on its website at www.altacapitalfunds.com within 30 days of that quarter end. The Fund releases portfolio holdings to third party servicing agents on a daily basis in order for those parties to perform their duties on behalf of the Fund. These third party servicing agents include the Adviser, Distributor, Transfer Agent, fund accountant, administrator and Custodian. The Fund also may disclose portfolio holdings, as needed, to auditors, legal counsel, proxy voting services (if applicable), printers, pricing services, parties to merger and reorganization agreements with the Fund and their agents, and prospective or newly hired third party servicing agents, including the Adviser. The lag between the date of the information and the date on which the information is disclosed will vary based on the identity of the party to whom the information is disclosed. For instance, the information may be provided to auditors within days of the end of an annual period, while the information may be given to legal counsel or prospective third party servicing agents without any time lag. This information is disclosed to all such third parties under conditions of confidentiality. "Conditions of confidentiality" include (1) confidentiality clauses in written agreements, (2) confidentiality implied by the nature of the relationship (e.g., attorney-client relationship), (3) confidentiality required by fiduciary or regulatory principles (e.g., custody relationships), or (4) understandings or expectations between the parties that the information will be kept confidential. Third party servicing agents generally are subject to an independent obligation not to trade on confidential information under their code of ethics and/or as a result of common law precedents; however, the Trust does not require an independent confirmation from the third parties that they will not trade on the confidential information.

Additionally, the Fund may enter into ongoing arrangements to release portfolio holdings to Morningstar, Inc., Lipper, Inc., Bloomberg, Standard & Poor's, Thompson Financial and Vickers-Stock ("Rating Agencies") in order for those organizations to assign a rating or ranking to the Fund. In these instances, portfolio holdings as of a month end will be supplied within approximately 25 days after that month end. The Rating Agencies may make the Fund's top portfolio holdings and other portfolio characteristics available on their websites and may make the Fund's complete portfolio holdings available to their subscribers for a fee. Neither the Fund, the Adviser, a Sub-Adviser, nor any of their affiliates receives any portion of this fee. Information released to Rating Agencies is not released under conditions of confidentiality nor is it subject to prohibitions on trading based on the information. Prior to disclosing portfolio holdings information to Rating Agencies, the CCO must find that: (1) the Fund has a legitimate business purpose for releasing the information in advance of release to all shareholders or the general public; and (2) the disclosure is in the best interests of shareholders.

Upon approval of the CCO, the Fund may also disclose portfolio information pursuant to regulatory request, court order or other legal proceeding.

The Trust has adopted Portfolio Holdings Disclosure Policies ("Disclosure Policies") detailing the circumstances under which the Fund's portfolio holdings may be disclosed to third parties. The Disclosure Policies permit the Fund to adopt its own portfolio holdings disclosure policies, as set forth herein, that are consistent with the Disclosure Policies ("Fund Policies"). Prior to approving the Disclosure Policies and the Fund Policies, the Trustees considered the circumstances under which the Fund may disclose its portfolio holdings as well as conflicts of interest between the Fund's shareholders and the Adviser, the Distributor, or any affiliated person of the Fund, the Adviser, or the Distributor resulting from such disclosures ("Conflicts"), and determined that the disclosure of portfolio holdings information under such circumstances were in the best interests of the Fund.

Except as described above, the Fund is prohibited from entering into any arrangements with any person to make available information about the Fund's portfolio holdings without the prior authorization of the CCO and the specific approval of the Board. The Adviser must submit any proposed arrangement pursuant to which it intends to disclose the Fund's portfolio holdings to the CCO, who will review such arrangement and any Conflicts to determine whether the arrangement is in the best interests of Fund shareholders. Additionally, the Adviser and any of its affiliated persons are prohibited from receiving compensation or other consideration, for themselves or on behalf of the Fund, as a result of disclosing the Fund's portfolio holdings. Finally, the Fund will not disclose portfolio holdings as described above to third parties that the Fund knows will use the information for personal securities transactions.

To oversee the Disclosure Policies and the Fund Policies, the Trustees consider reports and recommendations by the CCO regarding the adequacy and implementation of the compliance programs of the Trust and its service procedures adopted pursuant to Rule 38a-1 under the 1940 Act. The Trustees reserves the right to amend the Disclosure Policies at any time without prior notice to shareholders in its sole discretion.

DETERMINATION OF NET ASSET VALUE

You may purchase or redeem shares of the Fund class at the net asset value of those shares next calculated after the Transfer Agent receives your request in proper form, plus (or minus, in the case of a redemption) any applicable sales charge. For information concerning the purchase, redemption, and exchanges of Fund shares, see "How to Buy Shares" and "How to Redeem Shares" in the Fund's Prospectus. For a description of the methods used to determine the share price and value of the Fund's assets, see "Determination of Net Asset Value" in the Fund's Prospectus and in this SAI.

The Fund may authorize one or more brokers and other intermediaries to receive, on its behalf, purchase and redemption orders. Such brokers would be permitted to designate other intermediaries to receive purchase and redemption orders on behalf of the Fund. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or, if applicable, a broker's authorized designee, receives the order. Customer orders will be priced at the Fund class' net asset value next computed, plus (or minus, in the case of a redemption), after the orders are received by an authorized broker or such broker's authorized designee, and accepted by the Fund.

The price (net asset value) of the shares of the Fund class is determined as of the close of trading on the New York Stock Exchange (“NYSE”), which is normally 4:00 p.m., Eastern Time on each day the Trust is open for business. The Trust is open for business on every day on which the NYSE is open for trading. The NYSE is closed on Saturdays, Sundays and the following holidays: New Year’s Day, Martin Luther King, Jr. Day, President’s Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving and Christmas.

An exchange-traded equity security (including an ETF) is generally valued by a pricing service at the last quoted sale price provided by market in which the security principally trades. Securities traded in the NASDAQ over-the-counter market are generally valued by the pricing service at the NASDAQ Official Closing Price. If, on a particular day, an exchange-traded or NASDAQ security does not trade, then the mean between the most recent quoted bid and asked prices will be used. All equity securities that are not traded on a listed exchange are valued at the last sale price in the over-the-counter market. If a non-exchange traded security does not trade on a particular day, then the mean between the last quoted closing bid and asked price will be used. Debt securities are valued by using the mean between the closing bid and ask prices provided by a pricing service. If the closing bid and asked prices are not readily available, the pricing service may provide a price determined by a matrix pricing method. Matrix pricing is a mathematical technique used to value fixed income securities without relying exclusively on quoted prices. Matrix pricing takes into consideration recent transactions, yield, liquidity, risk, credit quality, coupon, maturity, type of issue and any other factors or market data the pricing service deems relevant for the actual security being priced and for other securities with similar characteristics. Any discount or premium is accreted or amortized on a straight-line basis until maturity. Shares of mutual funds are generally valued at the NAVs of such companies for purchase and/or redemption orders placed on that day.

Foreign securities are priced in their local currencies as of the close of their primary exchange or market or as of the close of the NYSE, whichever is earlier. Foreign securities, currencies and other assets denominated in foreign currencies are then translated into U.S. dollars using the applicable currency exchange rates as of the close of the NYSE as provided by a pricing service. Trading in foreign securities generally is completed, and the values of such securities are determined, prior to the close of securities markets in the U.S. Foreign exchange rates are also determined prior to such close. On occasion, the values of securities and exchange rates may be affected by events occurring between the times as of which determination of such values or exchange rates are made and the time as of which the NAV of each Fund class is determined. When such events materially affect the values of securities held by the Fund or its liabilities, such securities and liabilities may be valued at fair value as determined in good faith in accordance with procedures approved by the Fund’s Board.

When market quotations are not readily available, when the Adviser determines that the price provided by the pricing service does not accurately reflect the current market value, or when restricted or illiquid securities are being valued, such securities are valued at a fair value as determined in good faith according to procedures established by and subject to review by the Board. The Board annually approves the pricing services used by the fund accounting agent. “When-issued” or “TBA” debt securities are debt securities traded prior to the time they are issued. If the pricing service does not provide a price for these securities they will be valued at fair value consistent with the Trust’s valuation procedures. A Pricing Committee is convened to determine a security’s fair value, as needed. Fair valued securities held by the Fund (if any) are reviewed by the Board on a quarterly basis.

The NAV per share of each Fund class is determined by taking the market value of that Fund class’ total assets (including interest and dividends accrued but not yet received), subtracting the class’ liabilities (including accrued expenses), and then dividing the result (net assets) by the number of outstanding shares of the Fund class at such time. Fund Shares are offered for purchase at their Net Asset Value per Share which is calculated as follows:

$$\text{Net Asset Value Per Share} = \frac{\text{Net Assets}}{\text{Shares Outstanding}}$$

REDEMPTION IN KIND

The Fund intends to redeem shares in cash. However, if the amount you are redeeming is over the lesser of \$250,000 or 1% of the Fund's NAV, pursuant to an election filed by the Trust under Rule 18f-1 of the 1940 Act, the Fund has the right to redeem your shares by giving you the amount that exceeds the lesser of \$250,000 or 1% of the Fund's net asset value in securities instead of cash, which is referred to as a "redemption in kind." In the event that a redemption in kind is made, a shareholder may incur additional expenses, such as the payment of brokerage commissions, on the sale or other disposition of the securities received from the Fund.

Redemptions in kind will be made only under extraordinary circumstances and if the Fund deems it advisable for the benefit of all shareholders, such as a very large redemption that could affect Fund operations (for example, more than 1% of the Fund's net assets). A redemption in kind will consist of securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. If the Fund makes a redemption in kind it will seek to distribute each security held by the Fund on a pro rata basis, excluding certain securities that are unregistered, not publicly traded, or for which market quotations are not readily available, and excluding other assets that have to be traded through a market place or with the counterparty to the transaction in order to effect a change in ownership. When making redemptions in kind, cash will be paid for assets that are not readily distributable, net of liabilities. Cash will also be distributed in lieu of securities not amounting to round lots, fractional shares, and accruals on such securities. Pursuant to procedures adopted by the Board, redemption in kind transactions will typically be made by delivering readily marketable securities to the redeeming shareholder within 7 days after the Fund's receipt of the redemption order in proper form. Marketable securities are assets that are regularly traded or where updated price quotations are available. Illiquid securities are investments that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Certain illiquid securities may be valued using estimated prices from one of the Trust's approved pricing agents. If the Fund redeems your shares in kind, it will value the securities pursuant to the policies and procedures adopted by the Board. You will bear the market risks associated with maintaining or selling the securities that are transferred as redemption proceeds. In addition, when you sell these securities, you will pay taxes and brokerage charges associated with selling the securities.

STATUS AND TAXATION OF THE FUND

The Fund was organized as a series of a business trust, and intends to qualify for treatment as a regulated investment company ("RIC") under the Internal Revenue Code of 1986, as amended (the "Code") in each taxable year. There can be no assurance that it actually will so qualify. If the Fund qualifies as a RIC, its taxable dividend and capital gain distributions generally are subject only to a single level of taxation, to the shareholders. This differs from distributions of a regular business corporation which, in general, are taxed first as taxable income of the distributing corporation, and then again as dividend income of the shareholder.

If the Fund does qualify as a RIC but (in a particular calendar year) distributes less than 98% of its ordinary income and 98.2% of its capital gain net income (as the Code defines each such term), the Fund is subject to an excise tax. The excise tax, if applicable, is 4% of the excess of the amount required to have been distributed over the amount actually distributed for the applicable year. If the Fund does not qualify as a RIC, its income will be subject to taxation as a regular business corporation, without reduction by dividends paid to shareholders of the Fund. In such event, dividend distributions would be taxable to shareholders to the extent of the applicable Fund's earnings and profits, and would be eligible for the dividends-received deduction for corporations.

To continue to qualify for treatment as a RIC under Subchapter M of the Code, the Fund must, among other requirements:

- Derive at least 90% of its gross income each taxable year from (collectively, "Qualifying Income"): (1) dividends, interest, payments with respect to securities loans, gains from the sale or other disposition of stock or securities or foreign currencies, and certain other income (including gains from options, futures, or forward contracts derived with respect to the RIC's business of investing in stock securities, or foreign currencies); and (2) net income from a qualified publicly traded partnership (the "Income Requirement"). A qualified publicly traded partnership ("QPTP") is defined as a "publicly traded partnership" (generally, a partnership the interests in which are "traded on an established securities market" or are "readily tradable on a secondary market (or the substantial equivalent thereof)") that derives less than 90% of its gross income from income described in clause (1); (the "Income Requirement");

- Diversify its assets so that at the close of each quarter of its taxable year: (1) at least 50% of the value of its total assets must consist of cash and cash items, government securities, securities of other registered investment companies, and securities of other issuers, with these other securities limited, in respect of any one issuer, to an amount that does not exceed 5% of the value of the Fund's total assets and that does not represent more than 10% of the issuer's outstanding voting securities (equity securities of a QPTP being considered voting securities for these purposes); and (2) no more than 25% of the value of its total assets may be invested in (a) the securities of any one issuer (other than government securities and securities of other RICs), (b) the securities (other than securities of other RICs) of two or more issuers that the Fund controls and that are engaged in the same, similar, or related trades or businesses, or (c) the securities of one or more QPTPs (the "Asset Diversification Requirement"); and
- Distribute annually to its shareholders at least 90% of its investment company taxable income (generally, taxable net investment income less net capital gain) (the "Distribution Requirement").

Pursuant to the Regulated Investment Company Modernization Act of 2010 (the "Modernization Act"), if the Fund fails the Income Requirement test for a taxable year, it will nevertheless be considered to have satisfied the test for such year if (1) the Fund satisfies certain procedural requirements and (2) the Fund's failure to satisfy the gross income test is due to reasonable cause and not due to willful neglect. However, in such case, a tax is imposed on the Fund for the taxable year in which, absent the application of this provision, it would have failed the gross income test equal to the amount by which (1) the Fund's non-qualifying gross income exceeds (2) one-ninth of the Fund's qualifying gross income, each as determined for purposes of applying the gross income test for such year.

Also pursuant to the Modernization Act, if the Fund fails the Asset Diversification Requirement as of the end of a quarter, it will nevertheless be considered to have satisfied the test as of the end of such quarter in the following circumstances. If the Fund's failure to satisfy the Asset Diversification Requirement at the end of the quarter is due to the ownership of assets the total value of which does not exceed the lesser of (1) one percent of the total value of the Fund's assets at the end of such quarter and (2) \$10,000,000 (a "de minimis failure"), the Fund will be considered to have satisfied the Asset Diversification Requirement as of the end of such quarter if, within six months of the last day of the quarter in which the Fund identifies that it failed the Asset Diversification Requirement (or such other prescribed time period), the Fund either disposes of assets in order to satisfy the Asset Diversification Requirement, or otherwise satisfies the Asset Diversification Requirement.

In the case of a failure to satisfy the Asset Diversification Requirement at the end of a quarter in a case that does not constitute a de minimis failure, the Fund will nevertheless be considered to have satisfied the Asset Diversification Requirement as of the end of such quarter if (1) the Fund satisfies certain procedural requirements; (2) the Fund's failure to satisfy the Asset Diversification Requirement is due to reasonable cause and not due to willful neglect; and (3) within six months of the last day of the quarter in which the Fund identifies that it failed the Asset Diversification Requirement (or such other prescribed time period), the Fund either disposes of assets in order to satisfy the Asset Diversification Requirement, or otherwise satisfies the Asset Diversification Requirement. However, in this case, a tax is imposed on the Fund, at the current rate of 35%, on the net income generated by the assets that caused the Fund to fail the Asset Diversification Requirement during the period for which the Asset Diversification Requirement was not met. However, in all events, such tax will not be less than \$50,000.

The Fund intends to distribute net investment income on an annual basis. Net investment income distributed by the Fund generally will consist of interest income, if any, and dividends received on investments, less expenses. It is anticipated that a substantial portion of the Fund's net interest income will be exempt from Federal income tax other than the Federal alternative minimum tax ("AMT"). Generally, you are not subject to Federal income tax on the Fund's distributions of its tax-exempt interest income other than the AMT.

The Fund's distributions of taxable interest, other investment income and short-term capital gain, whether or not reinvested, are taxable to you as ordinary income, except as described below.

The Fund will normally distribute net realized capital gains, if any, to its shareholders once a year. Capital gains are generated when the Fund sells its capital assets for a profit. Capital gains are taxed differently depending on how long the Fund has held the capital asset sold. The Fund's taxable distributions, whether received in cash or reinvested in additional shares of the Fund, may be subject to federal income tax. Distributions of gains recognized on the sale of capital assets held for one year or less are taxed at ordinary income rates for Federal income tax purposes; distributions of gains recognized on the sale of capital assets held longer than one year are taxed at long-term capital gains rates for Federal income tax purposes regardless of how long you have held your shares. If the Fund distributes an amount exceeding its income and gains, this excess will generally be treated as a non-taxable return of capital.

Taxable Fund distributions received by your qualified retirement plan, such as a 401(k) plan or IRA, are generally tax-deferred; this means that you are not required to report Fund distributions on your income tax return when paid to your plan, but, rather, when your plan makes payments to you or your beneficiary. Special rules apply to payouts from Roth and Education IRAs.

The portion of the taxable dividends the Fund pays (other than capital gain distributions and any dividends received from any REIT in which the Fund invests) that does not exceed the aggregate dividends it receives from U.S. corporations will be eligible for the dividends received deduction allowed to corporations; however, dividends received by a corporate shareholder and deducted by it pursuant to the dividends received deduction are subject indirectly to the AMT.

A portion of the periodic returns distributed to the Fund by entities in which it invests may be attributable to return of capital. The Fund may pass through return of capital distributions received from these entities to its shareholders. The tax treatment of the Fund's receipt of and distribution of return of capital to shareholders is as follows:

- (1) Return of capital received by the Fund from the entities in which it invests is a tax-deferred distribution. The distribution of return of capital to the Fund by an entity in which the Fund invests decreases the Fund's basis in its investment in that entity. If the Fund sells its investment in that entity in excess of its basis therein, the Fund will incur a taxable gain that ultimately will be passed on to shareholders;
- (2) Return of capital paid by the Fund to its shareholders is also a tax-deferred distribution. The distribution of return of capital to shareholders will decrease the basis of each shareholder's investment in the Fund. If a shareholder sells its investment in the Fund in excess of its basis therein, the shareholder will incur a taxable gain.

Since any payment of return of capital to the Fund by an entity in which it invests or by the Fund to a shareholder decreases the Fund's basis of its investment in that entity and the shareholder's basis in its investment in the Fund, respectively, the gain incurred by the Fund and the shareholder may be higher than if no return of capital had been paid.

If you are a non-retirement plan holder, the Fund will send you a Form 1099 each year that tells you the amount of distributions you received for the prior calendar year, the tax status of those distributions, and a list of reportable sale transactions. Generally, the Fund's taxable distributions are taxable to you in the year you received them. However, any taxable dividends that are declared in October, November or December but paid in January are taxable as if received in December of the year they are declared. Investors should be careful to consider the tax consequences of buying shares shortly before a distribution. The price of shares purchased at that time may reflect the amount of the anticipated distribution. However, any such distribution will be taxable to the purchaser of the shares and may result in a decline in the share value by the amount of the distribution.

If shares of the Fund are sold at a loss after being held by a shareholder for six months or less, the loss will be treated as long-term, instead of a short-term, capital loss to the extent of any capital gain distributions received on such shares.

The Fund's net realized capital gains from securities transactions will be distributed only after reducing such gains by the amount of any available capital loss carry forwards. Capital losses incurred generally may be carried forward to offset any capital gains.

Capital losses and specified gains realized after October 31, and net investment losses realized after December 31 of the Fund's fiscal year may be deferred and treated as occurring on the first business day of the following fiscal year for tax purposes.

Foreign Investments. Gains or losses attributable to fluctuations in exchange rates that occur between the time that the Fund accrues interest, dividends or other receivables or accrues expenses or other liabilities denominated in a foreign currency and the time that the Fund actually collects such receivables or pays such liabilities are treated as ordinary income or ordinary losses. Similarly, gains or losses from the disposition of a foreign currency, or from the disposition of a fixed-income security or a forward contract denominated in a foreign currency that are attributable to fluctuations in the value of the foreign currency between the date of acquisition of the asset and the date of its disposition, also are treated as ordinary income or ordinary losses. These gains or losses increase or decrease the amount of the Fund's investment company taxable income available to be distributed to its shareholders as ordinary income, rather than increasing or decreasing the amount of its net capital gain.

If the Fund owns shares in a foreign corporation that constitutes a "passive foreign investment company" for federal tax purposes (a "PFIC") and the Fund does not make either of the elections described in the next two paragraphs, it will be subject to federal income taxation on a portion of any "excess distribution" it receives from the PFIC or any gain it derives from the disposition of such shares, even if it distributes such income as a taxable dividend to its shareholders. The Fund may also be subject to additional interest charges in respect of deferred taxes arising from such distributions or gains. Any tax paid by the Fund as a result of its ownership of shares in a PFIC will not give rise to any deduction or credit to the Fund or to any shareholder. A PFIC is any foreign corporation (with certain exceptions) that, in general, meets either of the following tests for the taxable year: (1) at least 75% of its gross income is derived from "passive income" (including interest and dividends) or (2) an average of at least 50% of the value (or adjusted tax basis, if elected) of its assets produce, or are held for the production of, "passive income." The Fund's distributions of income from any PFICs will not be eligible for the 15% and 20% maximum federal income tax rates on individual shareholders' "qualified dividend income" described in the Prospectus.

The Fund could elect to "mark to market" its stock in a PFIC. Under such an election, the Fund would include in gross income (and treat as ordinary income) each taxable year an amount equal to the excess, if any, of the fair market value of the PFIC stock as of the close of the taxable year over the Fund's adjusted basis in the PFIC stock. The Fund would be allowed a deduction for the excess, if any, of that adjusted basis over that fair market value, but only to the extent of any net mark-to-market gains included by the Fund for prior taxable years. The Fund's adjusted basis in the PFIC stock would be adjusted to reflect the amounts included in, or deducted from, income under this election. Amounts so included, as well as gain realized on the disposition of the PFIC stock, would be treated as ordinary income. The deductible portion of any mark-to-market loss, as well as loss realized on the disposition of the PFIC stock to the extent that such loss does not exceed the net mark-to-market gains previously included by the Fund, would be treated as ordinary loss. The Fund generally would not be subject to the deferred tax and interest charge provisions discussed above with respect to PFIC stock for which a mark-to-market election has been made.

If the Fund purchases shares in a PFIC and elects to treat the PFIC as a "qualified electing fund," the Fund would be required to include in its income each taxable year its *pro rata* share of the ordinary income and net capital gains of the PFIC, even if the income and gains were not distributed to the Fund. Any such income would be subject to the Distribution Requirement and the calendar year excise tax distribution requirement described above. In most instances it will be very difficult, if not impossible, to make this election because some of the information required to make this election may not be easily obtainable.

Investors should be aware that the Fund may not be able, at the time it acquires a foreign corporation's shares, to ascertain whether the corporation is a PFIC and that a foreign corporation may become a PFIC after the Fund acquires shares therein. While the Fund generally will seek not to invest in PFIC shares to avoid the tax consequences detailed above, there are no guarantees that it will be able to do so, and it reserves the right to make such investments as a matter of its investment policy.

Investment income received by the Fund from sources within foreign countries and U.S. possessions (collectively, “foreign sources”) and gains that the Fund realizes on the disposition of foreign securities may be subject to foreign income, withholding, or other taxes withheld at the source. The United States has entered into tax treaties with many foreign countries that may entitle the Fund to a reduced rate of such taxes or exemption from taxes on such income. It is impossible to know the effective rate of foreign tax in advance, since the amount of the Fund’s assets to be invested within various countries will vary.

LLC/LP Investments. The Fund may invest in LLCs and LPs that are classified for federal tax purposes as partnerships. An LLC or LP in which the Fund invests may be (1) a “publicly traded partnership” (that is, a partnership the interests in which are “traded on an established securities market” or “readily tradable on a secondary market (or the substantial equivalent thereof)”) (a “PTP”) or (2) a non-PTP at least 90% of the income of which satisfies the Income Requirement. Certain of those PTPs will be QPTPs.

If an LLC or LP in which the Fund invests is a QPTP, all its net income (regardless of source) would be qualifying income for the Fund under the Income Requirement. The Fund’s investment in QPTPs (including MLPs), together with certain other investments, however, may not exceed 25% of the value of its total assets in order to satisfy the Asset Diversification Requirement. In addition, if the Fund holds more than 10% of a QPTP’s (including MLPs) equity securities, none of those securities will count toward its satisfying those requirements.

With respect to non-QPTPs, (1) if the LLC or LP is treated for federal tax purposes as a corporation, distributions from it to the Fund would likely be treated as “qualified dividend income” and disposition of the Fund’s interest therein would be gain from the disposition of a security, or (2) if the LLC or LP is not treated as a corporation, the Fund would be treated as having earned its proportionate share of each item of income the LLC or LP earned. In the latter case, the Fund would be able to treat its share of the entity’s income as qualifying income under the Income Requirement only to the extent that income would be qualifying income if realized directly by the Fund in the same manner as realized by the LLC or LP.

Certain LLCs and LPs (*e.g.*, private funds) in which the Fund invests may generate income and gains that are not qualifying income under the Income Requirement.

The foregoing is only a summary of some of the important federal income tax considerations affecting the Fund and its shareholders and is not intended as a substitute for careful tax planning.

Prospective investors should consult their own tax advisers for more detailed information regarding the above and for information regarding federal, state, local and foreign taxes.

CUSTODIAN

Huntington National Bank, 41 South High Street, Columbus, Ohio 43215, is custodian of the Fund’s investments. The custodian acts as the Fund’s depository, safekeeps the Fund’s portfolio securities, collects all income and other payments with respect thereto, disburses funds at the Fund’s request and maintains records in connection with its duties.

For its custodial services, the custodian receives a monthly fee from the Fund based on a sliding scale of the market value of the assets under custody, subject to minimum annual fees. The custodian also receives asset-based administration and safekeeping fees for securities custodied outside the U.S. as well as various transaction-based fees.

TRANSFER AGENT, FUND ACCOUNTING AGENT, AND ADMINISTRATOR

Under the terms of a Mutual Fund Services Agreement between the Trust and Ultimus Fund Solutions, LLC (“Ultimus”), 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, Ultimus serves as Transfer Agent and shareholder services agent, fund accounting agent, and administrator for the Fund.

As transfer agent and shareholder services agent, Ultimus maintains the records of each shareholder’s account, answers shareholders’ inquiries concerning their accounts, processes purchases and redemptions of the Fund’s shares, acts as dividend and distribution disbursing agent and performs other shareholder service functions. As fund accounting agent, Ultimus calculates the daily net asset value per share and maintains the financial books and records of the Fund. As administrative services agent for the Trust, Ultimus supplies non-investment related administrative and compliance services for the Fund. Ultimus prepares tax returns, reports to shareholders, reports to and filings with the Securities and Exchange Commission and state securities commissions, and materials for meetings of the Board.

For its transfer agency services to the Funds, Ultimus receives a yearly fixed amount per shareholder account, subject to yearly minimum fees per portfolio and/or share class. Ultimus is also entitled to receive additional amounts that may be activity or time-based charges, account/transaction fees related to the administration of the Trust's Anti-Money Laundering Compliance Program plus reimbursement for out-of-pocket expenses. For its administration and fund accounting services to the Fund, Ultimus receives a monthly fee based, in part, on a sliding scale calculated according to the average daily net assets of the Fund (subject to minimum annual fees per Fund share class). In addition, the Fund pays Ultimus' out-of-pocket expenses including, but not limited to, literature fulfillment services; statement, confirmation and tax form production; record storage, telephone and mailing charges, bank fees; special reports; and edgarization fees.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The firm of Ernst & Young, LLP, 800 Yard Street, Suite 200, Grandview Heights, OH 43212, has been selected as the Independent Registered Public Accounting Firm for the Fund. Ernst & Young, LLP provides audit services, tax return preparation and assistance, and audit-related services in connection with certain SEC filings.

DISTRIBUTOR

Pursuant to a Distribution Agreement between the Trust, on behalf of the Fund, the Adviser and Ultimus Fund Distributors, LLC (the "Distributor"), 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, the Distributor is the exclusive agent for distribution of shares of the Fund. Ultimus Fund Distributors, LLC is a wholly-owned subsidiary of Ultimus Fund Solutions, LLC. Certain officers of the Trust also are officers of the Distributor. As a result, such persons may be deemed to be affiliates of the Distributor.

Under the Distribution Agreement, the Distributor is obligated to sell the shares of the Fund on a best efforts basis. Shares of the Fund are offered to the public on a continuous basis.

Pursuant to the Distribution Agreement, the Distributor also agrees to (1) review all proposed advertising materials and sales literature for compliance with applicable laws and regulations, and file with appropriate regulators those advertising materials and sales literature it believes are in compliance with such laws and regulations; (2) enter into agreements with such qualified broker-dealers and other financial intermediaries (the "Financial Intermediaries"), as requested by the Fund in order that such Financial Intermediaries may sell shares of the Fund; (3) prepare reports for the Board regarding its activities under the agreement and payments made under the Fund's Rule 12b-1 Distribution Plan (if applicable) as from time to time shall be reasonably requested by the Board; and (4) monitor amounts paid under Rule 12b-1 plans (if applicable) and pursuant to sales loads (if applicable) to ensure compliance with applicable FINRA rules. For these services, the Adviser pays the Distributor an annual fee, payable in monthly installments. In addition, the Adviser reimburses the Distributor for certain out-of-pocket expenses incurred on the Fund's behalf.

PROXY VOTING POLICIES

The Trust and the Adviser have each adopted proxy voting policies and procedures reasonably designed to ensure that proxies are voted in shareholders' best interests. As a brief summary, the Trust's policy delegates responsibility regarding proxy voting to the Adviser. In each case, proxies will be voted in accordance with the Adviser's proxy voting policy, subject to the supervision of the Board.

The Trust's policy provides that if a proxy proposal raises a material conflict of interest between the interests of the Adviser, the Trust's principal underwriter, or an affiliated person of the Fund, the Adviser, or a principal underwriter and that of the Fund (a "Conflict"), the Adviser shall resolve such conflict by: (1) voting the proxy consistent with a pre-determined voting policy for various types of proposals ("Pre-Determined Voting Policy") if the Adviser has little or no discretion to deviate from such policy with respect to the proposal in question; or (2) disclosing the conflict to the Board and obtaining the Board's consent to the proposed vote prior to voting on such proposal if the Adviser has discretion to deviate from its Pre-Determined Voting Policy or does not maintain a Pre-Determined Voting Policy. Under the policy, the Board may vote a proxy subject to a Conflict disclosed by the Adviser based on the recommendation of an independent third party.

The Adviser's proxy voting policies and procedures have been implemented to ensure that the Adviser votes in the best interest of clients and address any material conflicts that may arise during the voting process. The responsibilities of proxy voting have been assigned to members of Alta Capital's Investment Committee. The Committee's duties consist of analyzing proxy statements of issuers whose stock is owned in the client accounts. Alta Capital's proxy voting is based on its experience with voting corporate governance issues. Each proxy will be considered based on the relevant facts and circumstances. One of the primary factors Alta Capital considers when determining the desirability of investing in a particular company is the quality and depth of that company's management. Accordingly, the recommendation of management on any issue is one of the factors considered in determining how proxies should be voted.

Under Alta Capital Management's Proxy Voting policy and procedures:

- In the absence of specific voting guidelines from the client, Alta Capital Management will vote proxies in the best interests of each particular client. Alta Capital Management's policy is to vote all proxies from a specific issuer the same way for each client absent qualifying restrictions from a client. Clients are permitted to place reasonable restrictions on Alta Capital Management's voting authority in the same manner that they may place such restrictions on the actual selection of account securities.
- Alta Capital Management will generally vote in favor of routine corporate housekeeping proposals such as the election of directors and selection of auditors absent conflicts of interest raised by an auditors non- audit services.
- Alta Capital Management will generally vote against proposals that cause board members to become entrenched or cause unequal voting rights.
- In reviewing proposals, Alta Capital Management will further consider the opinion of management and the effect on management, and the effect on shareholder value and the issuer's business practices.

Information regarding how the Fund voted proxies relating to portfolio securities will be available: (1) without charge, upon request, by calling Shareholder Services at 1-800-957-068; and (2) on the SEC's website at <http://www.sec.gov>.

FINANCIAL STATEMENTS

Financial statement are not available because the Fund had not commenced operations prior to the date of this SAI.
